

# Proposition 65 May Become Even More Hazardous to Your Business Health

[Joseph J. Green](#)

February 28, 2015

Special counsel [Joe Green](#) co-authored the *Metropolitan Corporate Counsel* article "Proposition 65 May Become Even More Hazardous to Your Business Health." The article outlines possible changes to California's "Proposition 65," which was adopted by voter referendum in 1986 as the Safe Drinking Water and Toxic Enforcement Act. Joe covered the history of "Proposition 65" as well as how the Office of Environmental Health Hazard Assessment's proposed revisions will make compliance more burdensome and less certain.
