

Status and Update on the EFH Bankruptcy

2016 Electric Reliability Council of Texas (ERCOT) Market Summit

Speaking Engagement

February 29, 2016

New York

Austin, TX

Energy Future Holdings (EFH) is one of the largest bankruptcy proceedings in the history of the industry, and involves some very non-traditional moves such as breaking out some assets into a REIT. Where does it stand at this point? What might happen in the near-to-midterm? This presentation will discuss the challenges that remain, and what the implications are for the ERCOT market.
