

# The American Lawyer Highlights Kelley Drye's India Practice

December 22, 2004

The cover story of the November issue of *The American Lawyer* focused on the legal landscape in India, highlighting Kelley Drye's India practice as a good example of how international firms can successfully tap into the India legal market despite stringent regulations which prohibit foreign firms from opening offices in India. The article discusses the various ways in which western firms have built thriving India practices, mainly representing European and American investors in energy, capital markets, M&A and outsourcing deals.
