About

With more than 10 years' experience, including as a law firm scientific advisor, Vincent Ferraro handles patent matters for a wide array of technologies. His work includes litigation, licensing, prosecution, due diligence, clearance, design around strategies, and opinions on various patent issues, including validity and freedom-to-operate.

In patent litigation cases, he guides clients through all phases of the case, including pre-suit due diligence, claim construction, discovery, depositions, hearings, and trial. Vincent also represents patent holders and patent challengers in post-grant review proceedings including inter partes review proceedings before the U.S. Patent Trial and Appeal Board.

Vincent also regularly advises his clients on IP portfolio management strategies and assists with product design strategies. He works closely with inventors, analyzes new inventions, drafts U.S. patent applications, and prosecutes patents before the U.S. Patent and Trademark Office in various high-technology fields and on consumer products.

Vincent has an electrical and computer engineering background and worked as an IT professional at a major company before becoming a lawyer. His tech experience includes:

- automotive technology
- cellphone and smartphone technology
- computer software and hardware
- consumer products
- data mining
- digital photography, video, and image processing
- e-commerce
- electronic circuitry and components
- financing

- GPS technology
- Internet security
- LCD technology
- mechanical devices
- medical devices and implants
- telecommunications
- video surveillance

Experience
