While the CPRA provides organizations with two years of crucial ramp-up time until the law's core provisions become effective, several new requirements easily justify starting a data inventory and retention policy immediately. The CPRA's groundbreaking codification of long-standing privacy principles, such as purpose limitation and records retention means extreme fines are in store for organizations who fail to properly minimize data.

In this webcast, join partner [Alysa Hutnik](#) and other industry experts as they discuss:

- The impact CPRA will have on organizations and what legal teams need to consider now
- Data retention requirements and what this means for your organization
- How to best implement data inventory and minimization strategies in 2021 to protect your company's data and your organization
