About

One of Kelley Drye's leading trial lawyers, Bill Escobar defends, prosecutes, and resolves serious and consequential business disputes for domestic and international companies. Combining aggressive advocacy with keen business sense, Bill has served as lead trial counsel in cases valued in billions of dollars for many of Kelley Drye's most prominent clients.

Bill prepares to go to trial and win.

Because he is a respected trial lawyer, he favorably resolves many of his cases before a dispute snowballs into acrimony and undue expense. Bill designs and implements litigation strategies that focus on achieving his clients' commercial objectives and protecting their financial and reputational interests, whether that means a behind-the-scenes, swift, negotiated dispute resolution or a hard-fought courtroom battle.

A dedicated team player valued for his straight-talk communication style, Bill is committed to realizing the right outcome while working diligently with each client and their constituents to balance costs and results.

Bill has successfully tried cases in federal and state courts across the country and has extensive experience in the litigation, arbitration, and mediation of complex disputes involving false claims, fraud, antitrust, RICO, international trade sanctions, lender liability, intellectual property, technology, and complex contractual matters, as well as significant employment-related claims.

Clients trust Bill to resolve their most challenging and high-stakes disputes with government entities, competitors, and transaction counterparties for three principal reasons: First, they know that Bill is always the most prepared counsel in a courtroom and will craft a credible, compelling, and persuasive story designed to sway a judge, jury, or arbitrator or position his client for a favorable settlement. Second, clients value Bill's consummate professionalism that balances pursuing an aggressive strategy with establishing good working relationships and credibility with the opposing party and the trier of fact to facilitate a sound business resolution. Finally, Bill effectively and efficiently guides client decision-makers and witnesses through the grind of litigation while minimizing the cost and anxiety that litigation generates.

Bill has successfully led presentations on behalf of clients at arbitrations and mediations. His success with alternative dispute resolution is due to his insightful planning, focused execution, and creative

insight into the assessment of the dispute. Bill has served as an arbitrator in an ICC arbitration and as a mediator in numerous federal court mediations through the mediation program of the U.S. District Court for the Southern District of New York.

Born in Bogota, Colombia, Bill is fluent in Spanish. He has considerable experience guiding foreign clients through the thickets of U.S. litigation. Because the litigation process in the U.S. is alien and intimidating to foreign businesses and legal professionals, foreign clients rely on Bill to help them understand their options and navigate them through even the most complicated proceedings.

Bill is also innovative in managing the cost of litigation for clients. He served as chair of the firm's national Litigation practice group from 2006–2013. In that role, Bill developed and instituted a Kelley Drye program to price litigation in a manner that gives clients a variety of fee options based on reliable budgets.

Experience

Environmental Litigation

Served as trial counsel for the State of New Jersey in prosecuting New Jersey's case against DuPont for knowingly discharging PFAS and other contamination from DuPont's Chambers Works site into the waters and environment of New Jersey for decades. Following a month of trial in federal court in Camden, DuPont and related companies agreed to a record setting settlement with New Jersey valued at \$2 billion in remediation, restoration, costs, and damages. On the eve of this trial, 3M settled-out for up to \$450 million more in PFAS damages to New Jersey. At \$2 billion, DuPont's settlement with New Jersey is the largest environmental recovery for a single plaintiff – and is one of the largest legal recoveries of any kind – in the history of the country.
