

# Senior Concept Artist

**Come create something great with us**

Koin's mission is to bring digital ownership to games which people play for years and remember forever.

We are looking for an amazing Senior Concept Artist with game development experience to help us create characters for our 3D characters and 2D cards for our collectable card game. In this totally remote role, you'll create a variety of digital art for characters, environments, visual effects and more.

Come join us and make great games with amazing people, all while enjoying a ridiculous amount of fun along the way.

## **Responsibilities**

- Iterate on character concepts in conjunction with our AI models to complete compelling ethically sourced art
- Sketch, refine and present your ideas for characters, props, environments, etc.
- Touch up renders of characters for use in marketing, splash art, UI, etc.

## **Qualifications**

- 8+ years of professional video game concept art design experience
- A portfolio, demonstrating a large number of 2D character concepts
- Experience utilizing Midjourney and Stable diffusion to accelerate concepting
