Quick Guide for SmartShaker 2

Apple iPhone

Note: SmartShaker 2 is compatible only with **the latest Apple iPhone iOS (Currently 11.2.6). Please update your iOS system on your phone.**

1. **Pairing your SmartShaker 2**
   1. Search and install '**SmartShaker+ (Plus)**' app, not 'SmartShaker' app, from Apple App Store
   2. Open the SmartShaker+ (Plus) app.
   3. Switch on the SmartShaker 2 (Green)
   4. Select the menu icon in the upper right corner
   5. Select "My devices" then "Add New Device"
   6. Select the SmartShaker 2
   7. Press and hold the snooze button for 5 seconds until the unit shakes.
   8. Select your SmartShaker 2 from the list of available devices.
   9. Select "Done"

2. **Please note**
   1. Once you have setup the SmartShaker 2, it will **disconnect** from your phone or tablet. The SmartShaker 2 will not need to be connected again until changes to the app have been made or you want to know the status of the battery.

3. **Reconnecting your SmartShaker 2**
    1. When you change set up such as alarm time or option, you need to reconnect to SmartShaker 2
    2. Switch on the SmartShaker 2 (Green)
    3. Press and hold the snooze button for 5 seconds until the unit shakes.

4. **Alarm Setting**

   Wake up to SmartShaker 2

    1. Tap the "Add New Alarm". You can set up alarms up to 10.
    2. Change the alarm time by moving the hours, minutes and am/pm up or down.
    3. Default set up for alarm days is Everyday. Select "Repeat" then choose the days you want the alarm to be active. Select "Edit Alarm" in the upper left corner.
    4. Select "Sound". Choose your alarm vibration and sound options.
    5. Set up Vibration
        i. Tap the "Use vibration" switch to turn on/off the vibration. When set to on, select the normal, strong or strongest vibration options.
    6. Set up Alarm ringtone
        i. Tap the "Use sound" switch to turn on/off the vibration. Tap the ">" to select one of the 8 ringtone sounds: Alarm, Birds, Stream, Rooster, Doorbell, Cuckoo, Chimes, and Air Horns.
        ii. Adjust the alarm volume by sliding the dot left (down) or right (up). You can also tap speaker icon on the left (down) or right (up). It provides 21 levels of volume control.
    7. Tap "Edit Alarm" then "Done" to save your alarm settings.
    8. If your SmartShaker 2 is not connected, tap "Save" and hold the snooze button on SmartShaker 2 for 5 seconds until the unit shakes to update the new alarm settings.

Wake up to Music on your iPhone

1. Tap the menu icon in the upper right corner
2. Select "Wake-up settings" under "Alarm setting"
3. Select "Music" under "WAKE UP MUSIC"
4. Select "Playlist" and "+Add list"
5. Select music you want by "Artists", "Albums", "Songs", "Genres", "Composers", or "Playlists"
6. Select "Done"
7. Select a music you want to wake up to
8. Adjust the music volume by sliding the dot left (down) or right (up).
9. Select "Stop playing on snooze" to stop playing music when alarm goes off and you press snooze button. The music will play again when alarm goes off after snooze. If you do not select "Stop playing on snooze", music will continue playing even if you press snooze button.
10. Select "Wake up Settings", "Settings", then "Done"
11. Tap Music icon in the alarm time circle to wake up to Music. The Music icon will be highlighted when music option is on and will be off when music option is not on.
12. If your SmartShaker 2 is not connected, select "Save" and hold the snooze button on SmartShaker 2 for 5 seconds until the unit shakes to update the new alarm settings.

Wake up to Light from Rainbow7 smartbulb

1. If you purchase iLuv Rainbow7, a Bluetooth smartbulb, additionally, you can wake up to light when SmartShaker 2 goes off.
2. Plug in Rainbow7 in a socket and turn on the power of the lamp.
3. Open SmartShaker+ app and select the menu icon in the upper right corner
4. Select "My devices" then "Add New Device"
5. Select the "Rainbow7"
6. Select your Rainbow7 from the list of available devices.

7. Select "Settings", and "Done"
8. In the SmartShaker+ app, tap the menu icon in the upper right corner
9. Select "Wake-up settings" under "Alarm setting"
10. Select "Bulb" under "RAINBOW BULB"
11. Select "Rainbow7" from the list
12. Select "Light" under "WAKE UP LIGHT"
13. Select light color you want to wake up to
14. Select "Turn off light on snooze" to turn off light when alarm goes off and you press snooze button. The light will turn on again when alarm goes off after snooze. If you do not select "Turn off light on snooze", light will continuously on even if you press snooze button.
15. Select "Flashing with selected color" under "FLASHING OPTION" to make the light flash when alarm goes off. Select Flashing duration (minutes). This features is available only with 2nd version. You can check the version information of Rainbow7 from next paragraph of "5. Control Rainbow7 smart bulb".
16. Select "Wake up Settings", "Settings", then "Done"
17. Tap Light icon in the alarm time circle to wake up to Light. The Light icon will be highlighted when light option is on and will be off when light option is not on.
18. If your SmartShaker 2 is not connected, select "Save" and hold the snooze button on SmartShaker 2 for 5 seconds until the unit shakes to update the new alarm settings.

5. **Control Rainbow7 smart bulb**
    1. You can also control Rainbow7 regardless of wake up option.
    2. Tap "Rainbow" icon at the right bottom.
    3. Tap on/off switch to turn on/off Rainbow7.
    4. Slide dot around the Rainbow7 to set up brightness
    5. Tap Rainbow7 image to set up.
    6. "Lights" menu will show up
    7. Under "Colors" menu
        a. Tap the color you want

b. Tap a bulb image with "+" under "Favorites" to save the selected color to favorite.

c. Adjust the brightness by sliding the dot left (decrease) or right (increase).

d. Tap on/off switch of "Enabled" under "SCHEDULE" for schedule function.

   i. Select "ON" to set up turning on time.

      1. Change the turn on time by moving the hours, minutes and am/pm up or down.

      2. Select days to repeat the turn on time

   ii. Select "OFF" to set up turning off time.

      1. Change the turn off time by moving the hours, minutes and am/pm up or down.

      2. Select days to repeat the turn off time

e. Tap "Rainbow7" under "BULB NAME" to change the name and type a new name you want

f. You can check version information under the "Bulb Name". 2nd version of Rainbow supports flashing light wake up feature but 1st version of Rainbow does not support it. Please refer to the previous paragraph of "4. Alarm Setting - Wake up to Light from Rainbow7 smartbulb" for the flashing light wake up feature.

8. Tap "White" menu on the top of the page

   a. Set up "Favorites", "Brightness", "Schedule", and change "Bulb Name" in the same way of Color menu set up

9. Tap "Groups" menu at the bottom to group multiple Rainbow7s as group

   a. Tap "+"in the upper right corner

   b. Type group name and tap "Done"

   c. Tap bulb image with the group name

   d. Tap "Bulbs in the group"

   e. Select Rainbow7 in the list which you want to add in the group

     f. Set up "Colors" and "White" page for the group in the same way of "Lights" menu for individual Rainbow7

     g. Tap on/off switch to turn on/off the group

     h. Slide dot around the Rainbow7 to set up brightness

6. **Turn off/on alarm**
   1. To turn off/on an alarm setting, select the alarm time then tap the off/on switch in the upper left corner.

7. **Delete alarm**
   1. Option 1
      i. To delete an alarm, swipe left an alarm time. Tap "Delete".
   2. Option 2
      i. Select the alarm time then tap "Delete" text and "Delete" on pop up message.
