## **SW5 Talking Alarm Watch Instructions**

There are four (4) buttons on this watch. The top right button is the only button that is raised, the other three are recessed. You will need a pointed object, such as a pen or a paper clip to push the recessed buttons.

TR = Top right button

BR = Bottom right button

TL = Top left button

BL = Bottom left button

To hear the time, press the TR button and the time will be announced.

### **To set time:**

- Using a pen or paper clip, press the BR button until you hear the first “bell” sound and the numbers on the LCD screen flash.
- Take the pen or paper clip and push the TL button to set the hour. The hour will be announced as you push the button. Push this button repeatedly until you hear the correct hour announcement
- Take the pen or paper clip and push the BL button to set the minute. The minutes will be announced as you push the button. Push this button repeatedly until you hear the correct minute announcement.

- Once you have set the watch for the correct time, do not push any buttons for 3 seconds and the correct time will be announced.
- To check the time setting, press the TR button to hear the time.

### **To set alarm:**

- Using a pen or paper clip, press the BR button repeatedly until you have heard two “bell” sounds. The numbers on the LCD screen will flash and the letters “AL” will be displayed.
- Take the pen or paper clip and push the TL button to set the hour for the alarm. The hour will be announced as you push the button. Push this button repeatedly until you hear the correct hour announcement.
- Take the pen or paper clip and push the BL button to set the minute. The minutes will be announced as you push the button. Push this button repeatedly until you hear the correct minute announcement.
- Once you have set the watch for the alarm time, do not push any buttons for 3 seconds and the watch will announce “Alarm, \_\_: \_\_AM”
- After 7 seconds, the display will stop flashing and the current time will be displayed.

### **To turn alarm on:**

- Using a pen or paper clip, press the BR button until you hear a “deet” sound. This sound will let you know that the alarm is on. There will also be a bell symbol on the display

### **To turn alarm off:**

- Press the BR button repeatedly until you have heard the “bell” sound three times. The bell symbol will disappear and the alarm will be off.

**NOTE:** To have the alarm “snooze”, press the TR button as the alarm is going off. The alarm will snooze for 10 minutes and then ring again. To keep the alarm set for the next day, let the alarm ring for one minute. After this minute, the alarm will stop ringing and the alarm will still be set for the next day. You may also use a paper clip or pen and push the TL or BL buttons as the alarm is going off. This will stop the alarm, but it will still be set for the next day.

### **To change alarm sound:**

- With a pen or paper clip, push the TL button while the watch is in regular time mode. If you press the button repeatedly, it will provide three different alarm sounds for you to choose from.

This watch takes one (1) CR2032 battery. It is recommended that you take this to a professional jeweler to have the battery changed.
