

### Tiger Claw Installation Gun for Grooved Decking

The Tiger Claw Pneumatic Installation gun is the fastest way to install hidden fasteners into grooved decking. The tool features a unique nose piece that holds the hidden fasteners in the correct position every time, firing a screw nail, “Scrail”, through the clip into the joist – fastening the deck board to the joist in one step. On average, this installation gun will install about 400 sq ft of decking in an hour. FastenMaster is proud to offer a full lifetime warranty on this tool.

- Full lifetime warranty
- For use with ConnectClip for Clubhouse Decking, Guardian Ghost Grip, KlearKlip for Klear Decking, Tiger Claw TC-G, TimberTech CONCEALoc, Trex HideAway, and more
- Comes complete with owner’s manual, DVD, adjusting wrenches, and gun oil
