## NOTE TO PARENTS

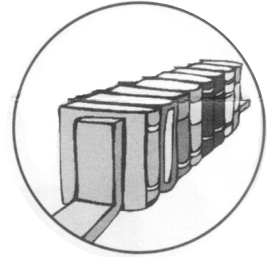

We know how hard your children work on summer reading and we appreciate that it is often difficult to visit our store to claim rewards as each step is completed by your child. However, the program will have the greatest impact if the rewards are not stored up to be claimed several at a time. In fact, this can be too overwhelming sometimes for your child. So we encourage that as each step is finished, your child should come in and claim that particular reward.

*See you soon! Thanks, Jacki*
