## Board Review and Clinical Synopsis

Kevin F. Smith, MD, MPH  
Hayley J. Smith, LLB (JD)

*Occupational and Environmental Medicine: Board Review and Clinical Synopsis* is an indispensable study guide for physicians preparing to take the Occupational Medicine board exam offered by the American Board of Preventive Medicine (ABPM).

Additionally, physicians, nurses, and other health professionals will want to keep this guide readily available as a quick reference tool for cases presenting in their clinical practice.

Preparing for and taking the Occupational Medicine Board Examination can be a daunting task for the busy professional. The first step toward achieving certification is being armed with the essential knowledge needed to successfully prepare for the exam.

The outline format allows the reader to quickly move through the review topics in a concise manner. Many valuable tables summarize information contained within the specific chapters and can aid in the final review process. The book format is designed to allow the user to write in additional notes as they study.
