

CARE AND MAINTENANCE

Always use felt pads under all articles to prevent discoloration or softening of the lacquer. Plastic and rubber bases on items can discolor wood. Wipe up spills immediately and avoid common hazards such as hot dishes, harsh solvents and abrasives. Cleaning should be done with a soft lint free cotton cloth dampened with water or furniture polish. On highly used surfaces we recommend applying a quality paste wax which should be used on a regular basis to provide additional protection from scratches and spills. How often you apply the wax depends on how much wear the furniture receives.

NOTICE

- * Please make sure that you have all parts indicated before you begin assembly of this item.
- * This item should be assembled on a soft surface to prevent scratching the finish during assembly.
- * This item may require periodic tightening.

Part List and Hardware List

Item# SFV1100A-K

Product Dimensions: 79"W x 83.07"D x 80"H

Weight Capacity: 550lbs
WARNING: DO NOT STAND ON THE BED. DO NOT OVER TORQUE BOLTS AND SCREWS.

PREPARATION

Before beginning assembly of product, make sure all parts are present. Compare parts with package contents list. If any part is missing or damaged, do not attempt to assemble the product.

Estimated Assembly Time: 60 minutes.

1

Step 1

Assemble headboard (A), left acrylic bedpost (C) and right acrylic bedpost (D) with socket screw (HW7) by use of Allen wrench (HW1) as shown in drawing. Then assemble bed end frame (B) to acrylic bedpost (C) and (D) with steel hex bolt (HW3), washer (HW9) and spring washers (HW11) and fasten it by Allen wrench (HW2).

2

Step 2

Assemble acrylic bed posts (E) and bed end frame (B) with steel hex bolt (HW3) and washer (HW9) and spring washer (HW11) by use of Allen wrench (HW2).

PREPARATION

Before beginning assembly of product, make sure all parts are present. Compare parts with package contents list. If any part is missing or damaged, do not attempt to assemble the product.

Estimated Assembly Time: 60 minutes.

3

Step 3

Assemble long side frame (F) with the sub-assembled headboard and footboard in step 1 and 2 with steel hex bolt (HW3) and washer (HW9) and spring washer (HW11) by use of Allen wrench (HW2) as shown in drawing.

4

Step 4

Insert long side top frame (H) into the tab of short side top frame (G) and assemble it by joint connector bolt (HW4). Then fasten it up by use of Allen wrench (HW1).
Now you finish the top frame of the canopy bed.

PREPARATION

Before beginning assembly of product, make sure all parts are present. Compare parts with package contents list. If any part is missing or damaged, do not attempt to assemble the product.

Estimated Assembly Time: 60 minutes.

5

Step 5

Assemble the subassembly canopy top frame to four corner bedpost assembled ready in step 3 with socket screw (HW6) and fasten up by use of Allen wrench (HW1) as shown in drawing.

6

Step 6

Assemble center support leg (K) to cross slat with hole (I) with socket screw (HW8) and washer (HW10) then fastening up by use of Allen wrench (HW1). Insert cross slat (J) and subassembly cross slat with support legs (I, K) to the tab on the long-side frame (F) with joint connector bolt (HW5) and washer (HW10) by use of Allen wrench (HW1).
