1

Insert the pre-installed dowels on the Table Legs (B & C) into the holes on the Leg Stretcher (D) as shown. Attach them by using the Allen Key (HW2) to screw in the M6x80MM bolts (HW1) as shown. Don't fully tighten the bolts.

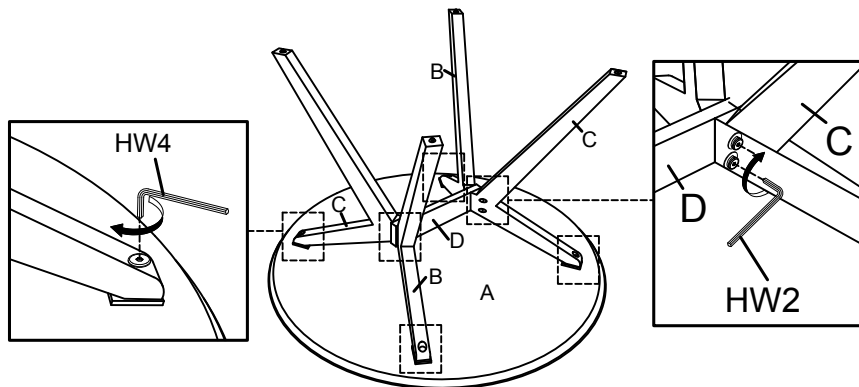

2

Lay the table top (A) upside down on a soft surface. Align the screw holes on the Table Legs (B & C) to the mounting plate on the Table Top (A). Make sure the arrow sticker on the leg stretcher (D) is the same direction as the arrow sticker on the Table Top (A). Use the Allen Key (HW4) to screw in the M8x40MM bolts (HW3) as shown.

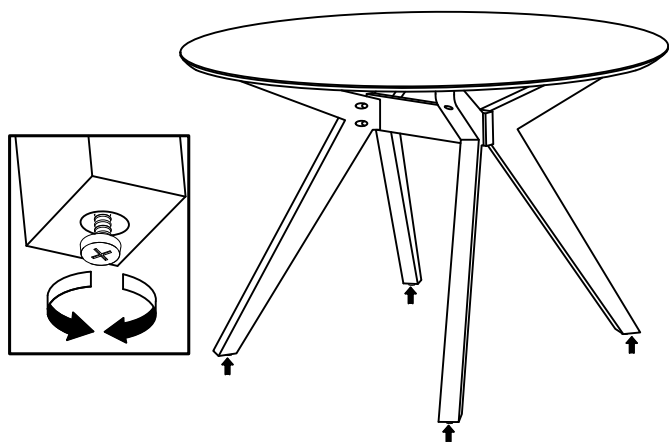

3

Fully tighten all the bolts but don't overtighten them.

4

Adjust the levelers on the bottom of the legs as needed to make the table level.

5

Place the dining table in the position where you will use it. We'd love to see it – just tag us (we're @safavieh) and use the hashtag #safavieh on Instagram!
