

**“Life is so much better after coming to work at VillageWorks. We want more orders so that more handicapped people can have work here.”**

*-Rorn Sok, sewing artisan*

Young Cambodians with disabilities find employment and self-sufficiency with our partner VillageWorks, learning to sew and assemble totes and duffel bags. We recently provided a grant and loan to the organization to make workshop improvements for increased production capacity and better wheelchair access, as well as funding for new sewing machines and looms.
