

## **Thankful for Fair Trade Work**

When Roopa joined MKS her family was in a difficult financial situation, and she was very thankful for the job. Since joining she has learned all of the fair trade principles and appreciates these standards having come from a strenuous working environment where she wasn't compensated appropriately for her work.

Her husband has passed away since she has been at MKS and she is now the sole earner for her family. She has been able to support her daughter and put her through school.
