

CoverLite Temporary Skylight Protection

- Portable, temporary skylight covers for roof light fall protection
- Prevent falls through skylights during roof maintenance and construction
- Compatible with a wide range of different sized skylights
- Lightweight and easy to transport onto the roof

TEMPORARY SKYLIGHT PROTECTION COVER

Key Features & Benefits

- **Lightweight and Portable:** Easy to carry and move across rooftops.
- **Durable GRP Build:** Tough, reusable construction for long-term use.
- **Lattice Design:** Retains natural light through the skylight.
- **Flexible Coverage:** Panels can be used in multiples for full skylight protection.
- **Fixing Kit:** CoverLite is used in conjunction with a permanently installed fixing pack (to be ordered in addition to the cover). It includes waterproof brackets, rivets, and reusable straps.
- **Quick Installation:** Easily fitted and removed keeps installation costs down.

CoverLite has been specifically engineered to reduce fall risks from fragile roof lights, offering temporary protection during essential rooftop work.

Constructed from durable GRP, the patented lattice design accommodates thermal movement while ensuring safety and light transmission.

Certified and Tested

- **ACR Red Book (Class B)** Withstands a 45kg mass dropped from 1.2m without allowing full penetration
- **BS EN 1873 (1200 Joule Impact Test)** Retains a 50kg mass dropped from 2.4m; mesh maintains <300mm gaps for safety compliance

SPECIFICATION

CoverLite

Open Size	2000mm x 1700mm
Closed Size	2000mm x 400mm
Weight	12.6kg
Coverage	1.6m ²
