

May 11, 2018

The Honorable Paul D. Ryan
Speaker
U.S. House of Representatives
Washington, D.C. 20515

The Honorable Nancy Pelosi
Minority Leader
U.S. House of Representatives
Washington, D.C. 20515

Dear Speaker Ryan and Leader Pelosi:

On behalf of the undersigned organizations committed to improving the health of women and families, we write to urge you to hold a vote on H.R. 1318, the bipartisan *Preventing Maternal Deaths Act*, in honor of Mother's Day. This legislation addresses a national public health crisis: the rising rates of maternal mortality across the United States.

More women in the United States die from pregnancy complications than in any other developed country, and the rate of maternal deaths continues to rise.^{i,ii} Black women are disproportionately impacted by this disturbing trend and are almost four times more likely to die from a pregnancy-associated cause than white women.ⁱⁱⁱ The current opioid epidemic also plays a role in maternal mortality rates. In a growing number of states, suicide and overdose are the leading causes of maternal mortality.^{iv,v}

Congress can address this crisis by supporting the work of state maternal mortality review committees (MMRCs). MMRCs are interdisciplinary groups of local experts in maternal, infant, and public health that examine maternal death cases and identify locally-relevant ways to prevent future deaths. H.R. 1318, a bipartisan bill introduced by Representatives Jaime Herrera Beutler (R-WA), Diana DeGette (D-CO), and Ryan Costello (R-PA), supports the development and support of state MMRCs through the Centers for Disease Control and Prevention (CDC).

Mother's Day should be a time for families to celebrate, not mourn the heartbreaking and premature loss of a mom from a pregnancy-associated death. Understanding what is causing these tragic events is critical to saving mothers' lives in the future. As Mother's Day approaches, America's mothers and families deserve this commitment to public health. We urge you to hold a vote on H.R. 1318 as soon as possible.

Sincerely,

1,000 Days
2020 Mom
