What would this ballot measure do and why should I vote NO?
This amendment would add explicit language to Kentucky’s constitution that abortion is NOT protected by the document.

Voting NO will prevent the addition of anti-abortion language to the state constitution and protect a critical path to fighting abortion bans and restrictions in Kentucky.

Current Abortion Access Landscape in Kentucky*

- Abortion is banned with very few exceptions
- State Medicaid coverage of abortion is banned in most circumstances
- Parental consent is required for minors
- 24-hour waiting period
