SMFM Fellowship PD Meeting
Important dates 2024

1. **Interviews:**
   1. April 28, 2024 – deadline for applications
   2. May 20, 2024 – single notification date
   3. May 28, 2024 – initial deadline to accept or decline interviews
Important dates 2024

1. First Year Fellow Retreat:
   1. **Friday** 10/25 – **Sunday** 10/27
1. Update your website with new application/interview dates as soon as possible
   *Consider looking at late applications, just this year
2. Provide us with new fellow contact info as soon as you have it
   *Not their residency email
Things to notify SMFM about:

1. Changes to program leadership/contact info

2. Plans not to participate in the Match or change complement (NRMP asks us for this data)
Signaling – AAMC is offering, think about it and we will poll you in the near future
Changes to MyERAS® Content for Fellowships

Currently available:
- Updated Experiences
- New and Enhanced Geographic Information

Opportunity for future cycle:
- Program Signals
Experiences

Experience Type, Primary Focus Area, & Key Characteristics

Paint a picture of an applicant…
What is important to them?
What specific qualities do they bring to your program?

Most Meaningful Experiences

Tell a story about each applicant…
Why were these experiences most meaningful and how did they influence them?

Impactful Experience (if applicable)

Provide additional context to the application…
What other background or life experiences applicants may have encountered or overcome on their journey to residency
How are geographic preferences shared with programs?

Your program sees:

- Applicant indicates preference for your division
  - Yes + Explanation

- Applicant indicates preference for another division
  - No information is displayed

- Applicant indicates no division preference.
  - No Preference + Explanation

- Applicant skipped question or left unanswered.
  - No information is displayed
AAMC Initial Recommendations for Maternal Fetal Medicine

- **5** Small Signal Approach
- **13** Large Signal Approach
- **5 Gold 8 Silver** Two-Tiered Approach
OBGYN: Interview Rates by Program Signal Status

Number of OBGYN programs plotted: 174 (2023 ERAS cycle).

Applicants who sent a gold signal:
