

Anisha, tavolo

technical details

FOSCARINI

Like a fluid and enveloping frame, Anisha outlines an empty space, defines it and fills it with its light, producing a magic sensation. The desire to emphasize its plastic, dynamic shape, its balance of full and empty spaces, determined the need to hide the light source within it. This is why the Led technology, with its minimal bulk, was chosen for the lamp, with a touch switch that is also integrated in its shape and responds to the simple touch of a finger. Available in two sizes, pure white that blends with the space, recognizable presence, Anisha is suitable for a wide range of settings, environments and uses. In the entrance, in a lounge, bedroom or on a desk, with its light spirit and unmistakable identity.
