

PLANNER ACTIVITY QUICK INSTALL GUIDE

Required for Installation

INSTRUCTIONS

- STEP 1: Place table top laminate face down on a smooth clean surface.
- STEP 2: Using the connector bolts found in the leg set box loosely attach the channel to the legs. (Do not tighten connector bolts past finger tight at this point.)
- STEP 3: Using supplied allen wrench adjust the legs to desired height.
- STEP 4: Carefully rotate frame unit and place flat against top using predrilled holes in the top for alignment. (For larger units the help of a second person will be required)
- STEP 5: Using supplied #10 wood screws loosely attach the legs and cross brace to the table. (Do not completely tighten screws at this point).
- STEP 6: Now go back and completely tighten connector bolts, once they are tight completely tighten wood screws into the table.

* Please note, doing any of these steps out of order could cause the legs to sit bowed on table, take care to follow instructions completely and in order.
