Vicon’s V922 high definition (HD) vandal bullet camera is designed for security installations that need a compact vandal resistant camera that delivers outstanding imaging at 1080P. The motorized focus and zoom 5-51mm lens delivers high quality images for long range targets. In order to adapt to the low light lighting conditions, the V922B has integrated IR LEDs designed to illuminate the scene up to 25 meters.

The V922D camera provides triple-streaming video and supports H.264 compression technology, drastically reducing file sizes and conserving valuable network bandwidth. Users can receive multiple streams simultaneously in different resolutions, frame rates and image qualities for viewing on different platforms. A microphone and speaker can be connected to the camera to enable two way audio thru the camera.

Installation is made easy and cost effective with Power over Ethernet (IEEE 802.3af), which eliminates the need for power cables. This compact camera fits unobtrusively in any location. The camera can be installed in-ceiling or surface mounted.
