

High School Homeschooling Planning Sheets

Lisa Marie Fletcher
The Canadian Homeschooler

Provincial High School Guidelines

Below you will find links to the credit requirements from each provincial government for mainstream high school students to receive their official provincial diploma.

While homeschoolers aren't typically eligible to get this kind of diploma, it can be useful while planning the high school years to see what other students are doing.

This is only provided for information purposes. Please make sure you know and follow the regulations for your province for homeschooling.
