66
ideas

thecanadianhomeschooler.com

Do your kids love Minecraft? Then they will love these challenge cards!

Included are 66 ideas - put together by me and my older 3 boys (who love Minecraft too!)

Some are intended for creative mode, some for regular play mode, some for multiplayer, and some even for off the computer!

Simply cut them up and have your child pull one out before they get started on their Minecraft adventures.

Have fun! :)

Just a reminder to please send anyone who would like these cards to my blog instead of sharing the file. I appreciate that. Thank you.

Happy building!
