As a doctor, CEREC® beta tester, educator and clinician, I value the importance of education as a driver of continuous change and the improvement of your practice to satisfy patient demands.

This is why I am proud to present advanced CEREC training at the Spear Campus in Scottsdale, Arizona and Dentsply Sirona Academy in Charlotte, North Carolina. From CEREC software training to using CEREC as a business tool and integrating CEREC and implants, our world-class faculty gives you the knowledge and tools to fully and successfully incorporate CEREC technology into your practice.

Our goal at cerecdoctors.com is to create an online community that provides CEREC users an opportunity to stay current with all things CEREC from anywhere in the world. With a robust discussion forum and more than 2,300 clinical videos, cerecdoctors.com is the go-to resource when you need CEREC information NOW.

Out of the three membership tiers offered, our most exciting and popular membership is Academy, which is designed to supplement the online community. In addition to full access to the cerecdoctors.com website, Academy members, and up to 10 of their team members, will have access to Spear Online, practice management tools, an online implant continuum, and the ability to earn CE credits. Among the many Academy benefits, members also get to choose destination events to enhance their educational experience. This includes seminars at the Spear Campus in Scottsdale, Arizona, a state-of-the-art facility with more than 30 CEREC Omnicams and milling chambers.

All eligible Academy memberships include admission to Dentsply Sirona World at Mandalay Bay Hotel, Las Vegas, Nevada taking place October 3-5, 2019. This is the premier event in dentistry, with previous guest lists including celebrities such as Katy Perry, Imagine Dragons and Jim Gaffigan, as well as a lineup of incredible clinicians presenting on dentistry’s hottest topics. This is a must-attend event in 2019 and is eligible with your Academy membership.

We look forward to helping you both personally and professionally, and we hope to see you soon at the Spear Campus in Scottsdale, Arizona, Dentsply Sirona Academy in Charlotte, North Carolina or as part of our online community.

Best regards,

Sameer Puri, D.D.S.
Membership Benefits

Choose the cerecdoctors.com membership that fits the needs of your practice.

Founded in 2006, cerecdoctors.com is the world’s largest CEREC® education resource. Our online and on-campus learning is considered unmatched by CEREC practitioners. With more than 24,000 members worldwide, the cerecdoctors.com website offers three membership tiers to accommodate members’ level of engagement and experience.

Whether you’re simply looking to access all of our CEREC Software Tutorial and Update Videos or striving to become a leader in the CEREC community, we have everything you need to help you build a successful CEREC practice.

The goal of cerecdoctors.com is to be the most comprehensive resource—whether online or through hands-on education—in the world. In this catalog, we will outline the three membership options and discuss the benefits of each as you move forward in your CEREC journey.

Premium Membership

For the CEREC® doctor who wants access to CEREC Software Tutorial and Update Videos.

Membership: $995/year

+ CEREC Case Analysis
cerecdoctors.com combines minds from all over the world to share their CEREC knowledge and provide real-time feedback on uploaded CEREC cases. With input from the community of CEREC doctors, this serves as a great tool to help you grow your clinical skills and improve patient care.

+ CEREC Resources

Discussion Boards
Your resource for questions, advice, case feedback and anything else you’d like to talk to your peers about. Start a new thread to find quick answers or participate in other threads. Utilize the robust search feature and subscribe to topics you want to follow.

Document Downloads
Documents that support all facets of your CEREC practice: PDFs, videos, RST files, keyboard shortcuts, parameters, service pack descriptions and more.

+ Certificate

Thank you for being a member. We’ll send you a certificate each year to celebrate your membership.
CEREC Software Videos
CEREC Software Update Videos
Our faculty members are often beta testers for new software rollouts, making them very familiar with the updates as they are released. They produce detailed, brief and to-the-point videos on each new feature so you get up to speed quickly.

CEREC Troubleshooting Videos
Think of these troubleshooting videos as an enhanced FAQ section for your CEREC machine. We’ll make a new video whenever we experience a challenge ourselves, receive numerous questions about a particular subject or discover a new way of doing something.

CEREC Material Videos
Dedicated to materials that can be milled by the CEREC milling unit, plus bonding and preparation concepts.

CEREC Product Videos
Videos that explore, review or provide a tutorial for any type of product that you might use in your CEREC practice.

CEREC Clinical Videos
CEREC procedures filmed on a live patient.

Galileos Software Videos
An extensive collection of videos dedicated to using the Galileos software.

Galileos Troubleshooting Videos
Videos to help you use the Galileos and navigate software challenges.

Galileos Surgical Videos
Lessons focusing on procedures utilizing the Galileos on a live patient.
Premium Plus Membership

For the CEREC® doctor interested in increasing efficiencies practice-wide.
Membership: $229/month or $2,495/year upfront

+ Premium Benefits
Premium Plus members also have access to the benefits in the Premium membership, which includes Software Videos, CEREC Resources and a Membership Certificate.

+ Marketing Tools
**cerecdoctors.com** helps you market your CEREC practice with resources that show patients your commitment to continued learning and exceptional patient care.

+ Online CE
You’ll get access to the Online Continuum, a weekly series of CE-eligible courses. It’s all part of our growing library of 2,300+ CEREC Training Videos.

+ Spear Online
Full access to Spear Education’s innovative digital learning platform designed to boost your skills and build a more powerful practice.

**Course Library**
Access to 1,300+ CE-eligible clinical and practice management lessons presented by dentistry’s most respected clinicians.

**Patient Education**
A series of short animated videos to educate your patients about their conditions.
You can show these in chair and in the waiting room, as well as email them to your patients or embed into your website.

Spear TALK
Spear’s online community of clinicians where you can find answers to any clinical or practice challenge.

Staff Training
Targeted online learning for the front office, hygienists and assistants to empower your whole staff and build a unified team.

Team Meetings
Online videos, agendas, guided discussions and more, designed to grow your team’s competency and create success within your practice.
+ Team Training
Behind every great CEREC doctor is a great CEREC team. Empower your team with Staff Training Videos, CEREC and Eaglesoft Software Training for assistants, website access for up to 10 members of your staff and Spear Online Team Meetings.

+ Webinars
Hosted by CEREC experts and respected industry leaders, these engaging webinars* focus on tools to build your CEREC practice and your team. Topics include software updates and the latest and greatest materials and clinical techniques. Membership includes access to complete webinar archive for you and your team.

Webinar Archive:
- Treatment Planning Comprehensive Anterior Cases
- Virtual Articulation and SICAT Function
- One Visit Chairside Zirconia Restorations

*Now eligible for CE
Academy Membership

For the CEREC® doctor who wants access to Academy, Premium Plus, Premium benefits and wants to build their confidence, proficiency, practice and team.

**Membership:** $229/month with $1,000 upfront or $3,495/year upfront

+ **Premium Benefits**

Academy members also have access to the benefits in the Premium and Premium Plus memberships, which include Software Videos, CEREC Resources, Membership Certificate, Marketing Tools, Online CE, Spear Online, Team Training and Webinars.

+ **Dentsply Sirona World**

Experience dentistry's biggest event of the year in Orlando! The 3-day festival features the best minds in the industry, as well as celebrity guests and entertainment.

+ **Seminar**

Seminars provide solid fundamental concepts, systematic treatment planning and proven steps for achieving predictable clinical results.

We have now combined the cerecdoctors.com Seminar options with Spear Seminars, offering a total of eight seminars with multiple dates for your convenience.

Choose one cerecdoctors.com Seminar or Spear Seminar, including:

- Treating Comprehensive and Esthetic Cases With a Digital Workflow
- Implants—The Surgical/Restorative Connection
- The Art of Treatment Planning and Case Presentation
- Interdisciplinary Management of Esthetic Dilemmas
- Demystifying Occlusion
- Treating the Worn Dentition
- Airway Prosthodontics—Taking Dentistry Beyond Sleep Apnea and Advancement Appliances
- Treating the Terminal Dentition and the Fully Edentulous Patient
+ CEREC Ortho Certification

Our workshops provide you with a hands-on learning experience and a renewed passion for dentistry. CEREC Ortho Certification will involve hands-on use of the CEREC Ortho software where participants must demonstrate proficiency in scanning full arch scans. The certification course is included with your membership (half-day course) and offered four times per year at Spear Campus.
Mentor Membership

For the doctor who wants access to everything in Premium, Premium Plus and Academy benefits and wants to be a leader in the CEREC® community.

Membership: $339/month with $1,000 upfront or $4,495/year upfront

+ Premium & Academy Benefits

Mentors have access to all of the benefits in the other three membership tiers PLUS several other advantages that are available only to our Mentor group. This is the full cerecdoctors.com experience, designed to put you and your CEREC practice at the forefront of dentistry.

+ Dentsply Sirona World

Experience dentistry’s biggest event of the year in Orlando! The 3-day festival features the best minds in the industry, as well as celebrity guests and entertainment.

+ Mentor Courses

Mentors have the unique opportunity to mentor classes for CEREC users. This is the best way to stay current, shape your role as a leader and learn new techniques when updates are released.

+ Mentor Meeting

This year’s meeting will be held in Las Vegas on October 2, 2019, the day before Dentsply Sirona World 2019. You won’t want to miss this!

+ Spear Study Club

Small groups of peers meet locally up to eight times a year to collaborate on actual cases provided by Spear Education, improve their clinical expertise, and discuss growing practice profitability.
Mentor membership is currently on a waitlist basis. If you are interested in becoming a Mentor, contact us to be added to the list at 877.295.4276 or info@cerecdoctors.com.

**+ Special Access & Incentives**

Be the first to access CEREC software updates, allowing you to get a head start on the latest advancements in CEREC technology. Mentors also get access to new materials and take part in beta testing to help develop products before they hit the market.
Hands-on Workshops

Give us two days. We’ll give you challenging, exciting education and a renewed passion for dentistry.

LV 6C •  Digital Full Arch Dental Implant Therapy
LV A2 •  CEREC Mastery for Dental Assistants

CEREC Mastery: Rapid Integration Into Your Practice

CE CREDITS 13 | 2 Days | Lecture & Hands-on Workshop
TUITION Doctor: $2,995 Staff: $995*

*Staff must accompany a paying Doctor to receive the Staff rate. Staff seating is exclusive to the Scottsdale location.

COURSE OBJECTIVES
You’ve completed Initial Training and viewed the training videos on cerecdoctors.com. Now it’s time to expand your CEREC knowledge and learn how to make better use of the CEREC technology and 4.6x software.

CEREC Mastery lays down the fundamentals for CEREC success so that you will be able to practice ideal occlusion with shorter, stress-free CEREC appointments. Level 2 gives you the skill set necessary to use the software to its fullest capabilities. You will get a thorough review of what it takes to make the CEREC process predictable and efficient.

All cerecdoctors.com hands-on workshops are conducted on Omnicams utilizing the latest 4.6x software.

No prerequisites necessary. Recommended for new owners and owners who are looking to build a solid foundation for all CEREC knowledge.

PARTICIPANTS WILL LEARN
• The importance of Prep and Picture, keys to all CEREC success
• To thoroughly understand each design technique: Biogeneric Individual, Biogeneric Copy, and Biogeneric Reference
• To become efficient with inventory and use of the CEREC blocks
• How to design and mill multiple adjacent and opposing restorations
• The importance of the Model Axis and other tools with CEREC software
• How to fabricate chairside temporary bridges
• The difference between fabricating provisional and permanent bridges
• How to contour and crystallize permanent e.max bridges

• The virtual Articulator function of the software, how to use it and for what clinical situations
• The range of materials choices and their indications
• How to mix and match various design techniques, including Biogeneric Individual and Biogeneric Copy for the same patient
• Advanced techniques to increase the efficiency of your CEREC fabrications
• How to send your cases to the laboratory using CEREC Connect
• How to manage multi-unit fixed partial denture cases with CEREC, from temporization to digital fabrication of the final restorations
• A thorough understanding of the bonding protocol and various types of cements available, from self-etching to total etch
Provisionalizing and Restoring Implants with CEREC

**PARTICIPANTS WILL LEARN**
- The differences between the various blocks for fabricating provisional and permanent chairside abutments
- How to use CEREC to create temporary and permanent implant restorations
- How to utilize CEREC to create and restore both screw-retained and cement-retained implant restorations
- How different tools affect implant proposals and where and when to use them
- The CEREC Galileos connection and the integration between cone beam and CAD/CAM
- File and image management as it relates to implant restorations fabricated with CEREC

**COURSE OBJECTIVES**
CEREC will produce highly esthetic implant restorations with perfect occlusion and contacts, whether you are treating a single tooth or complete quadrant. Fabricating chairside implant restorations opens an avenue to be more productive in one’s office, whether you are temporizing an edentulous area for implants or fabricating the final restoration.

All cerecdoctors.com hands-on workshops are conducted on Omnicams utilizing the latest CEREC software. Before attending the workshop, review the latest videos on abutments. There will be other videos that will be recommended after the workshop.

No prerequisites necessary. Level 2 completion encouraged.

**LEVEL 3**

Mastering Multiple Anterior and Posterior Restorations with CEREC

**PARTICIPANTS WILL LEARN**
- To master the art of color and shade selection
- To understand the differences between all CEREC blocks and when to use one block over another for a cosmetic result
- How to prepare anterior teeth for optimal esthetics and how preparation plays an integral role in your success
- How to create a roadmap for staining and glazing success
- How to design in Biogeneric Individual and Biogeneric Copy
- Biogeneric Reference and when it is appropriate to use in anterior situations
- The principles of Smile Design and how to apply them to treatment planning and case presentations, and more importantly, the final outcome of the case

**COURSE OBJECTIVES**
Many doctors don’t realize the full potential of their CEREC technology because they don’t use it to its full capacity. Some feel CEREC for posterior teeth, and consequently they lose out on the opportunities offered by anterior CAD/CAM dentistry. In fact, with CEREC you can achieve esthetic results equivalent to high quality labs.

Mastering Multiple Anterior and Posterior Restorations With CEREC provides you with the tools necessary to complete any large anterior or posterior case with ease, positively impacting your productivity, clinical outcomes and patient care.

No prerequisites necessary. Level 3 completion encouraged.

**LEVEL 4A**
COURSE CATALOG

Treating Comprehensive Cases With a Digital Workflow

CE CREDITS 13 | 2 Days | Lecture & Hands-on Workshop
TUITION Doctor: $2,995 Staff: $995*

PARTICIPANTS WILL LEARN
• How the inLab software differs from CEREC chairside software
• Different file formats that work with the inLab software
• Digital smile design and mock-ups
• Advanced case design with CEREC inLab software including implant applications

PARTICIPANTS WILL LEARN
• How the inLab software differs from CEREC chairside software
• The difference between the CEREC Software design techniques as it relates to comprehensive dentistry
• Appropriate ways to stage cases to help with financial need patients
• The proper way to program and utilize the virtual articulator in the CEREC software
• How to use the SICAT Function software suite
• Efficient placement and use of the SICAT JMT device
• Virtual wax ups and mock ups
• Cementation techniques for large comprehensive cases

*Staff must accompany a paying Doctor to receive the Staff rate. Staff seating is exclusive to the Scottsdale location.

COURSE OBJECTIVES
CEREC® goes beyond just single-tooth dentistry. This workshop will explore techniques for comprehensive cases and teach users to perform virtual wax ups, utilize the virtual articulator and incorporate cone beam scans to evaluate the patient’s dentition and occlusion.

All cerecdoctors.com hands-on workshops are conducted on Omnicams utilizing the latest CEREC software. Before attending the workshop, we recommend reviewing the latest videos on abutments. There will be other videos that are recommended after the workshop.

CEREC Level 2 and 4A is a prerequisite. Spear’s Facially Generated Treatment Planning workshop completion encouraged.

Advanced CEREC Software Mastery—Foundation For Integration Into your Practice

FACULTY Sameer Puri, D.D.S., Mike Skramstad, D.D.S.
CE CREDITS 20 | 3 Days | Lecture & Hands-on Workshop
TUITION Doctor: $5,495 Staff: $1,995

*Staff must accompany a paying Doctor to receive the Staff rate. Staff seating is exclusive to the Scottsdale location.

COURSE OBJECTIVES
Used by labs, CEREC inLab is a more advanced version of CEREC chairside software that enables clinicians to do more with their CEREC technology in-practice.

This three-day workshop sets the foundation for inLab success by preparing clinicians to use the software in a multitude of comprehensive case scenarios. Attendees learn inLab’s unique tools, as well as the different file designs and how to import and export files from the software to use with multiple fabrication options.

The workshop is hands-on, intensive and allows doctors to design, export and mill a multitude of restorations.

PARTICIPANTS WILL LEARN
• How to perform the new patient exam in the digital age
• The difference between the CEREC Software design techniques as it relates to comprehensive dentistry
• Appropriate ways to stage cases to help with financial need patients
• The proper way to program and utilize the virtual articulator in the CEREC software
• How to use the SICAT Function software suite
• Efficient placement and use of the SICAT JMT device
• Virtual wax ups and mock ups

COURSE OBJECTIVES
CEREC® goes beyond just single-tooth dentistry. This workshop will explore techniques for comprehensive cases and teach users to perform virtual wax ups, utilize the virtual articulator and incorporate cone beam scans to evaluate the patient’s dentition and occlusion.

All cerecdoctors.com hands-on workshops are conducted on Omnicams utilizing the latest CEREC software. Before attending the workshop, we recommend reviewing the latest videos on abutments. There will be other videos that are recommended after the workshop.

CEREC Level 2 and 4A is a prerequisite. Spear’s Facially Generated Treatment Planning workshop completion encouraged.
CEREC and Cone Beam Integration in Surgical Implant Dentistry

FACULTY Farhad Boltchi, D.M.D., M.S.
CE CREDITS 13 | 2 Days | Lecture & Hands-on Workshop
TUITION Doctor: $2,995 Staff: $995*

COURSE OBJECTIVES
This course will give you the experience to utilize the Sirona Cone Beam CT (Galileos or XG3D) for surgical planning of implants and may help you to understand the fundamentals of guided implant surgery. Intended for clinicians who are interested in, new to, or moderately experienced with implant therapy. This two-day lecture will take you from A to Z in all aspects of guided-implant planning using the Galileos/XG3D and the CEREC, as well as provide a complete understanding of all the different guided systems that are available to work with the CEREC and Galileos integration protocol. Learn the basics of implant placement using the guided protocol, and the advantages and disadvantages of each surgical system.

In the demonstration portion on Day 2, students will watch a surgical case that imports the CEREC models into the Galileos software, and virtually places the implants in the ideal position. Participants will then view a fabrication of a surgical guide for implant placement and learn how to utilize this guide according to the guided surgery protocol. This will provide a thorough understanding of the integrated digital implant dentistry protocol, where accurate treatment planning provides a blueprint for the surgical phase, thereby rendering the final restorative phase predictable and ideal.

No prerequisites necessary. Level 3 completion encouraged.

PARTICIPANTS WILL LEARN
• The fundamentals of CEREC and Galileos integration
• The basics of dental implant treatment planning, including the advantages of prosthetically driven treatment planning
• The basics of guided surgery over current freehand techniques
• The fundamentals, differences, indications, and step-by-step directions for the various surgical guide options available within the CEREC-Galileos integration workflow
• To import prosthetic proposals designed in CEREC into Galileos Implant Software to be used for implant planning
• To digitally treatment plan simple to complex dental implant cases
• To plan, design and fabricate a chairside surgical guide with the CEREC Guide 2 solution
• Guided surgery tips and tricks to ensure a predictable implementation
• The steps involved from start to finish in planning, placing and restoring an implant using the guided protocol and CEREC

Digital Esthetic Dental Implant Therapy and Advanced Grafting

FACULTY Farhad Boltchi, D.M.D., M.S.
CE CREDITS 20 | 3 Days | Lecture & Hands-on Workshop
TUITION Doctor: $5,495 Staff: $1,995*

COURSE OBJECTIVES
You attended Level 6A and learned how to treatment plan implants and create surgical guides. Level 6B will allow you to take your education further and learn more advanced techniques, such as grafting and soft tissue development.

This three-day workshop is designed for advanced users and those that want to refine how to treat implant patients, focusing on the latest implant therapy techniques, materials and procedures.

PARTICIPANTS WILL LEARN
• Digital treatment planning for esthetic cases
• Post-extraction implant therapy in the esthetic zone using custom healers
• Soft tissue and bone grafting in esthetic implant therapy using different types of graft materials and techniques
• Developing the transition zone in esthetic implant therapy
• Digital restoration of esthetic implant cases
• Materials available for single unit implant therapy
• Advanced bone grafting
• Sinus grafting

*Staff must accompany a paying Doctor to receive the Staff rate. Staff seating is exclusive to the Scottsdale location.
COURSE CATALOG

Digital Full Arch Dental Implant Therapy

FACULTY Farhad Boltchi, D.M.D., M.S., Ross Enfinger, D.M.D.
CE CREDITS 20 | 3 Days | Lecture & Hands-on Workshop
TUITION Doctor: $5,495 Staff: $1,995*

COURSE OBJECTIVES
This three-day workshop takes participants through the full digital workflow on how to treat a fully edentulous patient. Using CEREC and cone beam, attendees will learn tips and tricks for a systematic workflow for treatment planning, designing and executing full-arch implant therapy for patients.

Designed for users that have completed levels 6A and 6B, this intensive workshop will give you the tools you need to treat a fully edentulous patient with a completely digital workflow. All aspects of the CEREC chairside and InLab workflow relevant to the process will be discussed in this workshop.

PARTICIPANTS WILL LEARN
• Intro to digital full-arch implant prosthetics
• Edentulous options — indications and contraindications
• Pros and cons of various options, space requirements and maintenance
• Materials review for fixed hybrids
• Review of analog concepts
• Treatment planning for full-arch implant prosthetics
• Records collection
• Classic Guide vs Digital Guide workflow
• Soft tissue-supported vs. tooth-supported guides
• Galileos/CBCT/CEREC/InLab integration concepts and the available file types, plus ortho models, .dxd, .cmgdxd, .ssi, .iLab, .stl
• Ortho imaging for diagnostic models
• CBCT anatomy review and Galileos features
• Positioning multi-unit abutments for angled implants

CEREC® Mastery for Dental Assistants

FACULTY Sameer Puri, D.D.S.
CE CREDITS 13 | 2 Days | Lecture & Hands-on Workshop
TUITION $1,995*

COURSE OBJECTIVES
The most efficient offices take a harmonious, team approach to using CEREC technology to improve patient outcomes.

The new dedicated dental assistants training class is designed to teach assistants all aspects of CEREC, from software, design, materials and milling. This two-day, hands-on, intensive workshop prepares assistants to effectively take over the entire CEREC restoration fabrication process.

Each participant will work on a dedicated CEREC machine and gain the confidence to master the design and finishing of CEREC restorations.

PARTICIPANTS WILL LEARN
• How to recognize ideal preparation designs for inlays, onlays, veneers and crowns
• The different design techniques of Biogeneric Individual, Biogeneric Copy and Copy and Mirror (Biogeneric Reference), how they work and when to use them
• A review of the available materials and their appropriate clinical uses
• Hands-on with stain and glaze on multitude of materials
• Ideal polishing techniques for esthetic restorations
• Step-by-step zirconia restoration fabrication process

*Course is exclusive to staff only

• Cementation technique discussion
• Fabrication of inlays, onlays, crowns, and bridges
• Review of implant components and the CEREC implant workflow

$500 OFF
Premium Plus, Academy and Mentor members

*Staff must accompany a paying Doctor to receive the Staff rate. Staff seating is exclusive to the Scottsdale location.

Our Faculty

Sameer Puri, D.D.S.
Vice President, CEREC Education
Dr. Puri is the director of CAD/CAM at Spear and cerecdoctors.com. A CEREC beta tester since 2005, he has trained more CEREC practitioners than anyone else in the world.

Mark Fleming, D.D.S.
Faculty, CAD/CAM Dentistry
Dr. Fleming is a cerecdoctors.com faculty and clinical editor of cerecdoctors.com Magazine. He has been a CEREC user since 2001 and a beta tester for the CEREC software since 2004.

Mike Skramstad, D.D.S
Faculty, CAD/CAM Dentistry
Dr. Skramstad is a member of the faculty in the CAD/CAM department at the Spear Campus and cerecdoctors.com. He performs all aspects of cosmetic, implant and family dentistry with a focus on esthetic and CAD/CAM computerized dentistry.

Farhad E. Boltchi, D.M.D., M.S.
Faculty, CAD/CAM Dentistry
A member of the cerecdoctors.com CAD/CAM faculty, Dr. Boltchi is a clinical assistant professor in the graduate periodontics program at Baylor College of Dentistry, and maintains a full-time private practice in periodontics and dental implants in Arlington, Texas.

Ross Enfinger, D.M.D.
Faculty, CAD/CAM Dentistry
Dr. Enfinger is a cerecdoctors.com faculty and has extensive training in smile design, cosmetic dentistry, and facial esthetics. He is a high-tech expert who continually strives to maintain the state-of-the-art technology in the Advanced Esthetic Dentistry practice.

Meena Barsoum, D.M.D.
Faculty, CAD/CAM Dentistry
An advocate for continuing dental education and training on new technology, Dr. Barsoum provides both in-office CEREC and implant training to doctors across the country. He serves as a cerecdoctors.com faculty at the Spear Campus.
The Dentsply Sirona Academy, Charlotte is a state-of-the-art training facility for dental professionals who seek a comprehensive variety of clinical and technical continuing education curriculums, including hands-on teaching, live lectures and on-demand webinars.

CAMPUS DETAIL
The multi-purpose education center includes five training rooms, a video-conference meeting room, two clinical training rooms for hands-on education, a chairside CAD/CAM milling room, a Laboratory milling room, product showcases from Dentsply Sirona’s 10 product groups, and a 288-person auditorium.

AIR TRAVEL
Charlotte Douglas International Airport gives easy access to the Dentsply Sirona Academy, Charlotte and to the wealth of hotels, resorts and amenities that flourish in the Queen City.

GROUND TRANSPORTATION
Uber or Lyft: Hop on an Uber or Lyft for a short 30 minute drive to the Dentsply Sirona Academy. Private transportation is available through Connections Transportations with or without reservations at the airport.

Local: 704-589-7744 | Corporate: 800-268-2767
www.connectionstransportation.com
Sirona Academy. If you have made reservations elsewhere, check with the concierge regarding shuttle availability. We strongly recommend that you use hotel transportation or walk.

**FACILITY DETAIL**

Once you arrive at Dentsply Sirona Academy, Charlotte, we have everything you need onsite — breakfast and lunch selections served daily, snacks and beverages available throughout the day, lounge and seating for conversation and relaxation, and a business center for your Internet, phone and faxing needs.
cerecdoctors.com Magazine

Every quarter, cerecdoctors.com Magazine provides the most current and comprehensive insight into CEREC® technology and techniques.

- Interviews with the experts on the front lines of CAD/CAM
- Case studies
- Tips and tricks by CEREC experts
- Doctor profiles
...and much more

Manufacturer Contributions
cerectdoctors.com would like to thank the following companies for their contributions:
CAMPUS CANCELLATION POLICY

After you have registered for a course, we consider your registration to be a firm commitment for you to attend. Last-minute participant substitutions are difficult to arrange, although we understand emergency situations may arise that will affect your attendance to programs offered by cerecdoctors.com. We have established the following policy in case of course cancellation:

- Written notice must be given for course cancellation.
- If cancellation is made more than 90 days before the program date, 50% of the tuition, less the non-refundable deposit, is eligible for refund, or 100% of the tuition is transferrable to another program/date.
- If cancellation is made within 90 days prior to the program date, the entire tuition is non-refundable and non-transferrable.
- Any refunds issued within the guidelines of the cerecdoctors.com cancellation policy will incur a 6% nonrefundable fee.

In addition, cerecdoctors.com reserves the right to cancel or reschedule events as necessary. In such a case, tuition or deposit may be refunded in full or transferred to a future seminar or course. In no event shall cerecdoctors.com be liable for any cancellation or change penalties assessed by an airline or hotel as a result of course date changes or cancellations.

cerecdoctors.com is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by the AGD for Fellowship/Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. The current term of approval extends from 10/1/2018 to 9/30/22.
