RESOURCES FOR CEREC SUCCESS 2015
As a doctor, CEREC® beta tester, educator and clinician, I value the importance of education as a driver of continuous change and the improvement of your practice to satisfy patient demands.

This is why I am proud to present advanced CEREC training at the Spear Campus. From CEREC software training in both chairside and applications, to using CEREC as a business tool and integrating CEREC and implants, we give you the knowledge and tools to fully and successfully integrate CEREC technology into your practice.

Our goal at cerecdosctors.com is to provide many different ways that clinicians can stay involved with the CEREC technology.

cerecdosctors.com is an online community that provides CEREC users an opportunity to stay current with all things CEREC from anywhere in the world. With a robust discussion forum and more than 1,500 clinical videos, cerecdosctors.com is the go-to resource when you need CEREC information NOW.

The cerecdosctors.com Academy was created to supplement the online community. In addition to full access to the website, Academy members will have practice management tools at their disposal to help with the business side of their practices. Additional opportunities will bring the best of the best in the CEREC community to present the latest techniques and research in CEREC technology.

With more than 30 CEREC Omnicams and MCXL units on site and a world-class, second-to-none facility, we have every confidence that you will greatly benefit from the hands-on courses that are offered on campus. From the Rapid Integration course of Level 2 to learning about implants and abutments with the CEREC as well as multiple anteriors, we invite you to look at our course offerings.

We look forward to helping you both personally and professionally, and we hope to see you soon at the Spear Campus or as part of our online community.

Best regards,

Sameer Puri, D.D.S.
CEREC practitioners around the world rely on cerecdoctors.com for instant answers, the latest CEREC news and developments, and connection to a supportive network of other CEREC users around the world.

Join thousands of CEREC owners on the world's most powerful CEREC portal. Offering three levels of membership to meet the needs of CEREC clinicians of all proficiencies, cerecdoctors.com is YOUR source for knowledge, information, community and support.

As a Premium member, the online tools you'll find on cerecdoctors.com were created to increase your expertise no matter where you are in your CEREC journey. For every question or challenge you encounter, you've got a community of CEREC users and experts with you - every step of the way.

With the Academy membership, we have added clinical, practice and team management tools to support CEREC owners on a new level. Additional opportunities allow CEREC owners to not only collaborate online but also in person.

The cerecdoctors.com Mentor Group includes all of the amenities of Academy membership plus an annual meeting, product incentives and testing as well as mentoring CEREC courses and CEREC course audits.

Go deeper into your CEREC engagement with ACADEMY membership.

You’ll enjoy full access to cerecdoctors.com, plus generous amenities for you, your team and your practice.

FOR THE DOCTOR

• Annual cerecdoctors.com Premium Access

• More than 1,500+ CEREC Training Videos-Software, clinical application, team training and more

• Case Analysis-Upload your case for instant review by the cerecdoctors.com community

• CEREC downloads-Materials studies, recommended products, TiBase order forms and more

• 2015 SEMINAR BENEFIT
Choice of one CEREC Live-Patient Educational Seminar in Scottsdale, Ariz.:
- Esthetic Techniques, Materials With CEREC and the New CEREC Ortho Software
- Updates in CEREC Technology and Implants

• Monthly Webinars hosted by CEREC experts and respected industry leaders that focus on tools to build your CEREC practice and your team. Topics include software updates, materials and clinical techniques.

   Membership includes access to complete webinar archive.

• Dedicated Doctor Discussion Forum-Instant answers to virtually every CEREC challenge you encounter

• Membership Plaque

Academy offers benefits designed to...
FOR THE TEAM

• Free Website Membership for three team members
• 1,500+ Training videos, including CEREC training for Assistants and Eaglesoft software training
• Team Member Discussion Forum
• Access to CEREC Webinars and Webinar Archive

FOR THE PRACTICE

• NEW! CEREC Office Marketing Tools – Printed materials for your practice, to help patients understand and appreciate CEREC one-visit dentistry.
• NEW! 3-D Patient Education Videos – Explain conditions and procedures to patients with animated videos displayed on cerecdentist.net or embedded into your own website.
• Practice Listing on onevisitdentist.net

2015 LIVE PATIENT EDUCATIONAL SEMINARS

New to the cerecdoctors.com curriculum, these Live Patient Seminars are EXCLUSIVE to Academy members and cerecdoctors.com Mentors.
Academy Members: Choose one Live Patient Seminar

Mentors: Experience both Live Patient Seminars

To register for your seminar, email donna@cerecdoctors.com or call 877.295.4276

**Esthetic Techniques, Materials with CEREC® and the New CEREC Ortho Software**

*2015: March 7-8 or Oct. 22-23*

14 CE Credits

**Faculty:**
Sameer Puri, D.D.S., Mike Skramstad, D.D.S.,
Dennis Fasbinder, D.D.S., Ed McLaren, D.D.S.,
M.D.C., Kevin Kwiecien, D.M.D., M.S., and
Mr. Bill Marais

This seminar will present different techniques to improve the esthetics of all CEREC restorations. Additionally, the different applications and indications of Sirona's new CEREC Ortho software will be discussed. Attendees will witness live patient treatment on stage as it relates to applicable seminar topics.

**Participants Will Learn:**
- Smile Design techniques utilizing the CEREC technology
- Advanced Smile Design techniques with CEREC software and other platforms to maximize patient value and create a predictable result
- Understanding the new CEREC Ortho software and how it works
- How to utilize the CEREC Ortho software and its role to create modeless oral appliances for different clinical treatments

**Plus:**
- Appliance therapy indications from a resident Spear Faculty member
- Live anterior case demonstrating how techniques can be done chairside for beautiful anterior restorations
- CEREC materials updates for 2015 and how the new materials impact a CEREC practice

**Updates in CEREC Technology and Implants**

*2015: May 16-17 or Nov. 6-7*

14 CE Credits

**Faculty:**
Sameer Puri, D.D.S., Mike Skramstad, D.D.S.,
Farhad Boltchi, D.M.D., M.S., Darin Dichter, D.M.D.,
Darin O’Bryan, D.D.S. and Nishant Chauhan D.M.D.,
M.P.H., M.B.A.

This seminar is focused on implant integration with the CEREC and Galileos technologies. Ancillary new software updates related to this discipline will also be presented. Attendees will receive a broad overview of all the possibilities with regard to implant therapy as it relates to the CEREC technology, including imaging, design and materials available with the CEREC system to provide implant therapy for patients. The seminar will conclude with a live patient implant placement and restoration.

**Participants Will Learn:**
- The value of the CEREC system in providing implant therapy to patients
- Understanding all the updates relating to materials and procedures for implant dentistry and how to utilize them
- How to appreciate the CEREC and cone beam connection integration
- New CEREC technology for 2015 and how it will impact your practice
- Provisionalizing implants with CEREC: What are the options, and how to make the correct choice

**Plus:**
- SIDEXIS software upgrades for 2015 and how they will affect your practice
- Live patient on-stage implant surgery and provisionalization, integrating all the information presented in the seminar

CEREC MASTERY – RAPID INTEGRATION INTO YOUR PRACTICE

You’ve completed Patterson Basic Training and viewed the training videos on cerecdoctors.com. Now it’s time to expand your CEREC knowledge and learn how to make better use of the CEREC technology and 4.3 software.

CEREC Mastery lays down the fundamentals for CEREC success so that you will be able to practice ideal occlusion with shorter, stress-free CEREC appointments. Level 2 gives you the skill set necessary to use the software to its fullest capabilities. You will get a thorough review of what it takes to make the CEREC process predictable and efficient. Recommended for new owners and those owners who are looking to build a solid foundation for all CEREC knowledge.

All cerecdoctors.com hands-on workshops are conducted on Omnicams utilizing the latest 4.3.x software.

UPON COMPLETION OF THIS COURSE, YOU WILL BE ABLE TO:

- Understand the importance of Prep and Picture, keys to all CEREC success with both Omnicam and Bluecam
- Grasp the importance of proper preparations for all ceramic dentistry for predictable success
- Understand each design technique Biogeneric Individual, Biogeneric Copy and Biogeneric Reference
- Know the secrets to Functional Beauty, how to create the best proposal possible combining Biogeneric Copy and Biogeneric Individual
- Become efficient with inventory and use of the CEREC blocks
- Design and mill multiple restorations adjacent as well as and opposing restorations
- Understand the importance of the Model Axis and other tools with both the Omnicam and Bluecam
- Fabricate chairside temporary bridges
- Understand the difference between fabricating provisional and permanent bridges
- Know how to contour and crystallize permanent e.max bridges
- Understand the Virtual Articulator function of the software, how to use it and for what clinical situation
- Know the range of materials choices and their indications
- Know how to mix and match various design techniques, including Biogeneric Individual and Biogeneric Copy for the same patient
- Understand advanced techniques to increase the efficiency of your CEREC fabrications
- Know how to send your cases to the laboratory using CEREC Connect
- Manage multi-unit fixed partial denture cases with CEREC, from temporization to digital fabrication of the final restorations
- Manage multi-unit CEREC Connect cases
- Understanding the bonding protocol and various types of cements available, from self-etching to total etch

PLUS:

- Thorough parameter review
- Introduction to stain and glaze
- Complete materials review
- A comprehensive foundation of CEREC and CEREC Connect knowledge
- Clinical application of parameters
- Learn how to apply concepts learned to both Bluecam and Omnicam
- Thorough software review

Prerequisites:
Basic Training strongly recommended

Credits:
14 CE Credits
2 Days | Lecture and Hands-on

Day 1
Start time: 8:30 a.m.
Concludes: 4:30 p.m.

Day 2
Start time: 7:30 a.m.
Concludes: 3:30 p.m.

Location:
The Spear Campus
Scottsdale, Ariz.

Faculty:
Sameer Puri, D.D.S.
Mike Skramstad, D.D.S.
Mark Fleming, D.D.S.

Cost:
$2,500 Doctors
$900 Team Members
CEREC will produce highly esthetic implant restorations with perfect occlusion and contacts, whether you are treating a single tooth or complete quadrant. Fabricating chairside implant restorations opens an avenue to be more productive in one’s office whether you are temporizing an edentulous area for implants or fabricating the final restoration.

All cerecdoctors.com hands-on workshops are conducted on Omnicams utilizing the latest CEREC software. If you are using an earlier software version, please review these videos: Implants and Abutments and 4.3 Improvements.

UPON COMPLETION OF THIS COURSE, YOU WILL BE ABLE TO:

- Understand the differences between the various blocks for fabricating provisional and permanent chairside abutments
- Fabricate chairside abutments for implants utilizing CEREC software
- Use CEREC to create temporary and permanent implant restorations
- Utilize CEREC to create and restore both screw-retained and cement-retained implant restorations
- Understand how different tools affect implant proposals and where and when to use them
- Understand the CEREC/Galileos connection and the integration between cone beam and CAD/CAM
- Create provisional and permanent Maryland bridges
- Understand File and image management as it relates to implant restorations fabricated with CEREC
- Create Maryland bridge temporary restorations for patients waiting for implant integration
- Fabricate custom healing abutments with CEREC

PLUS:

- Introduction to restoring implants with CEREC
- Review the application of CAD/CAM and cone beam
- Different provisionalization techniques for implant dentistry with CEREC
- Thorough material review as it relates to CEREC and implants

Many doctors don’t realize the full potential of their CEREC technology because they don’t use it to its full capacity. Some feel they can only use CEREC for posterior teeth, and consequently they lose out on the opportunities offered by anterior CAD/CAM dentistry. In fact, with CEREC you can achieve esthetic results equivalent to with high quality labs.

Mastering Multiple Anterior and Posterior Restorations with CEREC provides you with the tools necessary to complete any large anterior or posterior case with ease, positively impacting your productivity, clinical outcomes and patient care.

All cerecdoctors.com hands-on workshops are conducted on Omnicams utilizing the latest CEREC software.

UPON COMPLETION OF THIS COURSE, YOU WILL BE ABLE TO:

• Master the art of color and shade selection
• Understand the differences between all CEREC blocks and when to use one block over another for a cosmetic result
• Prepare anterior teeth for optimal esthetics and how preparation plays an integral role in your success
• Create a roadmap for staining and glazing success
• Design in Biogeneric Individual, Biogeneric Copy and Biogeneric Reference and when it is appropriate to use each in anterior situations
• Understand the principles of Smile Design and how to apply them treatment planning and case presentations, and more importantly the final outcome of the case
• Do anterior cases same day, an indirect in two visits and the advantages/disadvantages of each
• Contour anterior restorations for optimal esthetics
• Understand esthetically enhance restorations milled from the CEREC system
• Understand how parameters affect anterior restorations
• Understand file and image management as it relates to the CEREC software
• Predictably treat multiple units with perfect occlusion and contacts
• Complete three posterior restorations in less than 90 minutes, using ideal form, symmetry and occlusion
• Esthetically stain and glaze restorations that rival lab esthetics

PLUS:

• Understand the appropriate parameters that affect anterior teeth
• Easy and predictable multiple anterior cementation techniques
• Effective techniques to image large cases with the Omnicam and Bluecam
• Learn how to integrate the Smile Design module in the CEREC software

Prerequisites:

CEREC INLAB PROFICIENCY AND MASTERY ESTHETICS

This course is intended for doctors who want to increase their knowledge of the inLab software, as well as improve their ability to better manipulate porcelain for mastery esthetics. It is designed for doctors who already have the CEREC system, and those who have completed the core cerecdoctors.com training curriculum at the Spear Campus.

This two-day course combines both lecture and extensive hands-on experience, and will give doctors advanced capabilities that are not possible with the chairside software.

AT THE COMPLETION OF THIS PROGRAM YOU WILL BE ABLE TO:

• Perform highly esthetic anterior contouring to bring your anterior restorations to the next level
• Thoroughly understand the differences between the design techniques available in the inLab software, including Reduced, Framework, Telescope and Multilayer modes
• Know when and how to use the Stack Mill feature of the software
• Understand how to splint together teeth and mill multiple restorations out of a single block
• Fabricate a chairside three-unit anterior bridge using the inLab software and learn how to design full-contour posterior bridges and multilayer bridges
• Fabricate chairside abutments for implants (Implant Frameworks, Hybrid Abutments and Hybrid Abutment Crowns)
• Learn how to master the new Abutment Bridge mode in the inLab with the latest CEREC software
• Fabricate esthetic Maryland bridges for any scenario
• Understand different connector options and how to take advantage of them
• Demonstrate a thorough mastery of the inLab software

PLUS:

• inLab tips and tricks
• Lecture and hands-on participation
• Comprehensive CEREC inLab knowledge for you and your team

Prerequisites:
Level 3 & 4 completion mandatory

APPLICATIONS OF CEREC AND GALILEOS INTEGRATION IN SURGICAL IMPLANT DENTISTRY

This course will give you the experience to utilize the Sirona Cone Beam CT (Galileo or XG3D) for surgical planning of implants and understand the fundamentals of guided implant surgery. Intended for clinicians who are interested in, new to, or moderately experienced with implant therapy. This two-day course will take you from A to Z in all aspects of guided implant planning using the Galileo/XG3D and the CEREC, as well as a complete understanding of the CEREC and Galileo Integration protocol. Learn the basics of implant placement using a guided surgery protocol and the associated nuances specific to guided surgery.

In the demonstration on Day 2, students will watch a surgical case that imports the CEREC models into the Galileo software, and virtually places the implants in the ideal position. Participants will then view the fabrication of a surgical guide for implant placement and how to utilize this guide according to the guided surgery protocol. This will provide a thorough understanding of the integrated digital implant dentistry protocol, where accurate treatment planning provides a blueprint for the surgical phase thereby rendering the final restorative phase predictable and ideal.

UPON COMPLETION OF THIS PROGRAM YOU WILL BE ABLE TO:

• Understand the basics of dental implant treatment planning, including the advantages of prosthetically driven treatment planning

• Understand the advantages of guided surgery over current freehand techniques

• Explore all the fundamentals of planning and fabricating a radiographic scanning template for Galileo scanning, and how the surgical guide is prepared from this prosthesis

• Import prosthetic proposals designed in CEREC into Galileo Implant to be used for implant planning

• Know the basics of implant surgery, including avoiding and managing complications

• Understand the basics of flap design, bone grafting and suture techniques as they relate to implant surgery

• Discover the differences between the implant systems that are supported by the Galileo Implant software

• Comprehend the steps involved from start to finish in planning, placing and restoring an implant using the guided protocol and CEREC

**FACULTY**

**Sameer Puri, D.D.S.**
Director of CAD/CAM
ceredoctors.com website founder Dr. Puri is a certified trainer and educator on CEREC proficiency. He has been a CEREC user since 2003 and has been heavily involved in beta testing of both software and hardware since the beginning of his CEREC ownership. He is also one of the few alpha testers of the CEREC software, and works closely with the developers of the CEREC system in Germany to ensure that the software is thoroughly tested prior to its public release.

A graduate of USC School of Dentistry, Dr. Puri also completed an A.E.G.D. residency at the University of Tennessee. He has been published in various journals, and is a consultant with numerous manufacturers to help bring CAD/CAM-related products to market. He serves as the director of CAD/CAM at the Spear Campus.

**Mike Skramstad, D.D.S.**
Faculty, CAD/CAM Dentistry

Dr. Skramstad is a 2000 graduate of the University of Minnesota School of Dentistry. He is a basic and advanced trainer for Patterson Dental and has lectured internationally on digital dentistry and the CEREC restorative process.

Dr. Skramstad is a beta tester for the CEREC software and a product consultant for multiple dental companies. He currently is faculty in the CAD/CAM department at the Spear Campus and contributor for www.ceredoctors.com.

Dr. Skramstad maintains a private practice in Orono, Minn. focusing on esthetic and CAD/CAM dentistry.

**Mark Fleming, D.D.S.**
Faculty, CAD/CAM Dentistry

Dr. Fleming is a 1978 graduate of The Ohio State University College of Dentistry. He has spoken to several international groups on CEREC technology and has served on the board of an international academy which furthered the understanding and use of computerized technologies and machinable restorative materials in dentistry. He serves as a consultant to a variety of dental manufacturers helping in product evaluation and design. He has been a CEREC user since 2001, a beta tester for the CEREC software since 2004 and serves as a faculty member in the CAD/CAM department at the Spear Campus and the clinical editor of cerecdoctors.com magazine.

**Farhad E. Boltchi, D.M.D., M.S.**
Faculty, CAD/CAM Dentistry

Dr. Boltchi is on faculty in the CAD/CAM, department at the Spear Campus and runs the Level 6 Cone Beam Integration Program.

Dr. Boltchi received his dental degree from the Medical University of Hannover in Germany and a certificate in periodontics associated with a Master of Science degree in oral biology from Baylor College of Dentistry in Dallas. He is a clinical assistant professor in the graduate periodontics program at Baylor College of Dentistry, and also maintains a full-time private practice in periodontics and dental implants in Arlington. He has achieved board certification status with the American Board of Periodontology and is a fellow of the International Team for Implantology (ITI).

Cancellation Policy: After you have registered for a course, we consider your registration to be a firm commitment for you to attend. Last-minute participant substitutions are difficult to arrange, although we understand emergency situations may arise that will affect your attendance to programs offered by cerecdoctors.com/Spear Campus. We have established the following policy in case of course cancellation:

Written notice must be given for course cancellation. If cancellation is made more than 90 days before the program date, 50% of the tuition, less the non-refundable deposit, is eligible for refund, or 100% of the tuition is transferrable to another program/date. If cancellation is made within 60 to 90 days of the program date, 25% of the tuition is eligible for refund, less the non-refundable deposit, or 100% of the tuition is transferrable to another program/date. If cancellation is made within 60 days prior to the program date, the entire tuition is non-refundable and non-transferable. Any refunds issued within the guidelines of the cerecdoctors.com/Spear Campus cancellation policy will incur a 6% non-refundable fee. In addition, cerecdoctors.com/Spear Campus reserves the right to cancel or reschedule events as necessary. In such a case, tuition or deposit may be refunded in full or transferred to a future seminar or course. In no event shall cerecdoctors.com/Spear Campus be liable for any cancellation or change penalties assessed by an airline or hotel as a result of course date changes or cancellations.
Online and on campus, the cerecdoctors.com community comprises thousands of doctors worldwide united in their eagerness to share and help others become more proficient.

We bring you the resources to maximize CEREC and other digital modalities in your practice, and provide the best dentistry to your patients.
