

Hands-On Activity

Engineer It • Where Does Our Trash Go?

Materials

What happens to trash?

Step 1

Bury the lettuce, napkin, and cup. Make sure it is covered with the soil.

Step 2

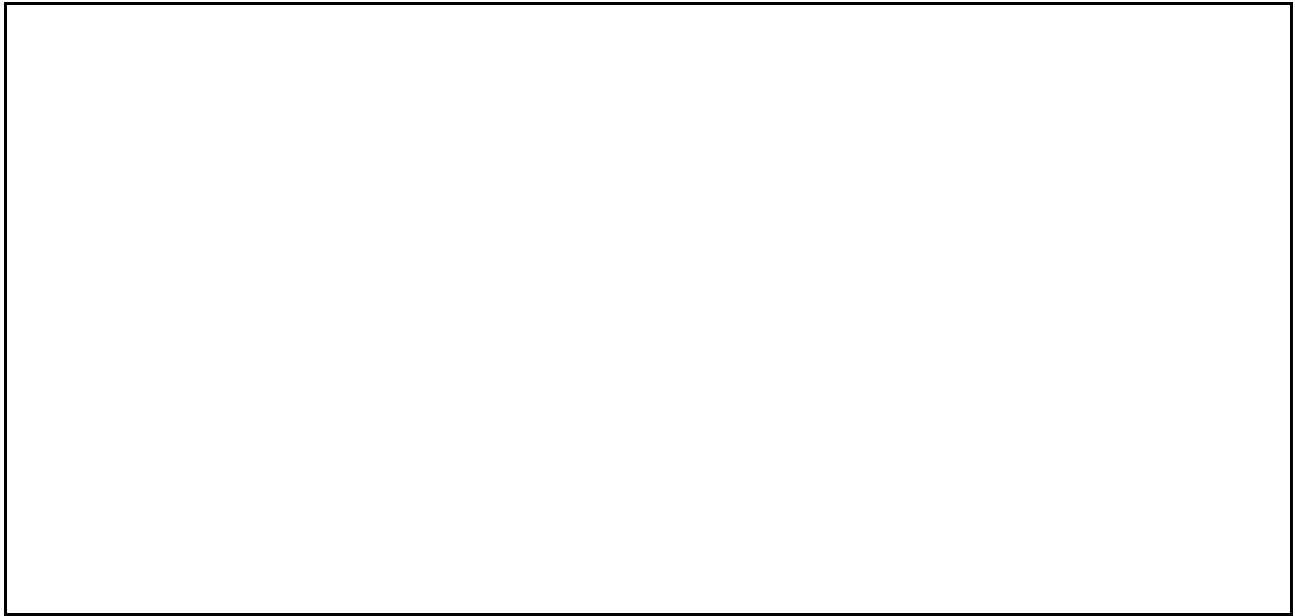

Water the soil every three days for two weeks.

Step 3

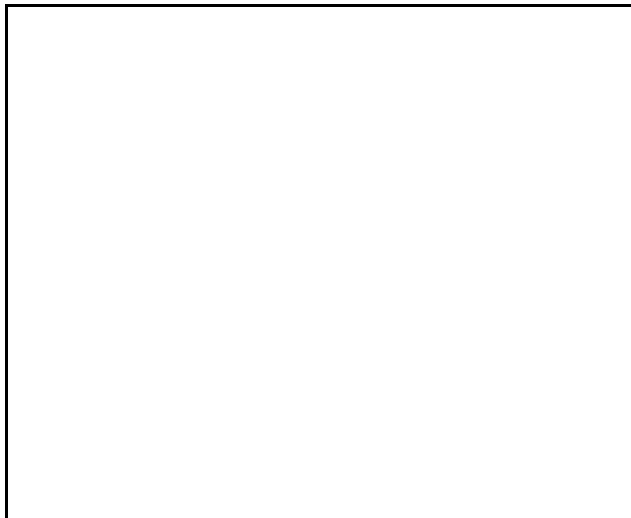

Dig up the lettuce, napkin, and foam cup. Tell why trash is harmful to the land.

Step 4

Draw a solution to help reduce the amount of trash that goes into a landfill.

Make a claim.

What is your evidence?
