

Introducing: The Nitro Productivity Suite

Empower your teams to do their best work.

The Nitro Productivity Suite helps organizations be more efficient, reduce printing, and lower costs by combining powerful PDF productivity tools with lightweight eSigning capabilities, rich data insights, and simple user management tools. It's digital transformation, realized.

Customer Success

Nitro Pro: PDF Productivity at Enterprise Scale

Equip every knowledge worker with the tools they need.

- Eliminate the most common productivity bottlenecks by giving every knowledge worker the power to edit and convert PDFs
- Bolster the security of your documents and data
- Standardize on a single PDF solution to simplify IT management
- See real results through quick adoption and high user satisfaction
- Reduce costs with the #1 Adobe® Acrobat® replacement

Nitro Cloud: eSigning for Everyone

Get documents signed faster, simpler, and without paper.

- Expedite form-filling and signing processes on any device
- Remove the need to print and sign forms like POs, expense reports, and offer letters
- Finalize PDFs, reorganize pages, and set form fields in any web browser before sharing
- Provide a better signing experience for customers and employees
- Equip your entire team at a fraction of the cost and complexity of DocuSign

End-to-End Workflow Efficiency

Make digital document workflows a reality.

- Seamlessly transition your work from desktop to cloud
- Access stored documents on the go from your favorite document repositories, including Dropbox, Google Drive, Box, and OneDrive
- Gain productivity insights based on common workflows and document activity
- Use suggested print alternatives to reduce paper and printing inefficiencies

Easy Deployment and Management

Streamline rollout and account maintenance.

- Simplify user and license management with Nitro Admin, available for Nitro Cloud. Admin for Nitro Pro is on the roadmap.
- See ROI with Nitro Analytics' feature usage and printing activity reports; available for Enterprise customers with more than 3,000 licenses.
- Discover opportunities to optimize document workflows
- Enjoy support for App-V and managed servers
- Look forward to single sign-on with our planned integration with AD and other IdP providers

Built-in Security

Ensure your data stays yours.

The Nitro Productivity Suite:

- Complies with all U.S. and EU eSign legislation
- Observes CSA and NIST SP 800-53 standards
- Has HIPAA and SOC 2 Type II certifications
- Integrates with Microsoft Rights Management Services (RMS)
- GDPR compliant (for May 2018 legislation)
