

Activity 15

Cross

Formed

Kids

What Torah did God give to King David in his special promise?

God gave King David the Torah for all mankind.

Tiny but Mighty!

Materials

Popcorn without salt, salt, napkins

Instructions

1. Pop some popcorn that has no salt on it. Pass out a few pieces to the children to have them try it.
2. Ask what they think is missing? Does it taste differently than what they have had before? Do they like it less?
3. Then, add some salt to the popcorn. Have the kids taste it again. How does it taste now? Did salt add to the flavor of the popcorn?
4. Brainstorm with the kids other food items that need salt to make a difference. Vegetables are definitely a must!

Point

Salt is so small, but makes a big difference. Adding salt to popcorn, fries, or green beans can help the food item be better, despite the size. This was like God's promise to David. Though Israel was small in comparison to the nations surrounding it, God would use Israel to make a great impact. Just how salt is able to improve & better the food you add it to, so was Israel to do for all the nations.
