

Activity 15

Cross

Formed

Kids

What nation did God grow from Abraham's descendants?

God grew the descendants of Abraham into the nation of Israel.

The Growing Fami-knee

Materials

Flashcards

Instructions

1. You might have played the game 'the blob' before. In this game, one person is named 'It'. Everyone else tries to avoid 'It', while 'It' tries to tag anyone in the room.
2. Anyone 'It' tags becomes part of 'the growing fami-knee'. They will lock arms with the rest of the 'fami-knee' and continue trying to tag the others in the room.
3. The last person to be tagged wins, and starts as 'It' in the next game. The catch is kids have to play this game on their knees.

Point

Through Abraham, God would fulfill his promise and make his descendants as "numerous as the stars in the night sky". These descendants would become known as the Israelites.
