Kids

What nation did God grow from Abraham's descendants?

God grew the descendants of Abraham into the nation of Israel.

All in the family

Materials

White construction paper
Painters tape
Different colored markers

Steps

1. Give each child a piece of construction paper.
2. Have them write the name Abraham horizontally with a pencil.
3. Use strips of painters tape to cover over the pencil spelling Abraham.
4. Then, have them use all of the different colors of markers to completely cover the white paper with color.
5. Have them carefully remove the painters tape and erase their pencil marks from Abraham.
6. Have them write inside the word Abraham phrases like "the nation of Israel" or "people of promise".

The Point

The different colored markers surrounding the word Abraham represent all of the different nations of people on Earth. Those that

are in Abraham are Israel, and are the people of promise. Because God is loving and faithful, we can trust him to keep all of his promises to all of his children.
