

It is time to make every Place of Worship safer

And it's Free

Safety cannot wait

With over 1,700 violent incidents taking place in churches since 1999 and the number of attacks increasing each year, we cannot afford to wait. We must take steps within our religious organizations to keep us all safer and more aware of risks at all times.

Connect the Safety Ministry

- Send and receive safety information instantly
- Multi-media messaging allows you to communicate more clearly
- Silent Alerts notify your Safety Ministry without disrupting services
- Keep your Safety Ministry informed throughout an emergency

Deployment that is as quick as it is easy

- Safe Worship is available on smartphones, computers, and tablets
- Self-registration allows your Safety Ministry to easily get started
- In one week, you can make your place of worship safer

Seamlessly grow into our full suite of safety tools

"I have had the pleasure of training churches all over America in church security and active shooter protocols. I have never seen any application or tool like CrisisGo."
