

Leading global advisory firm seeks an **Infrastructure Projects Research Intern** for its Pen Quarter office.

About us:

CG/LA Infrastructure focuses on the creation of long-term value in the world's infrastructure markets. Our goal is to support the doubling of global infrastructure investment by 2020. Infrastructure is the internal framework for a country, allowing its economy and its citizens to be productive and healthy. CG/LA provides public and private sector firms with services based on over two decades of working in various infrastructure sectors in the developed and developing world.

Core services provided by CG/LA Infrastructure include the Infrastructure Leadership Forum Series, Strategic Consulting, Project Development, and Macroeconomic analysis based on proprietary tools. Together these services form a dynamic package allowing stakeholders to properly identify key market challenges and effectively develop business.

Responsibilities:

- You will provide critical support for our Strategic Infrastructure Projects Team. This includes:
- Researching top infrastructure projects across the globe
- Contributing to our annual [Strategic 100](#) report
- Conducting outreach to project developers

You will receive:

- Hands-on experience interacting with senior staff with an industry leading organization
- Insight into the infrastructure sector and learn from visionaries in the field
- Introductions to industry experts and thought leaders by attending our Infrastructure Leadership Forums
- Opportunity to attend industry lectures and seminars in the DC area
- And an awesome letter of recommendation if you are up to the task

Qualifications:

- Undergraduate student in their final year, or graduate student, with background in Engineering, International Development, Economics, International Relations, or Political Science
- High-level research and organizational skills
- Capacity to operate and interact with high-level executives
- Ability to work independently and in a group setting
- Exceptional oral and writing communications skills
- Must be highly organized, detailed oriented, self-motivated and able to work in a dynamic and fast paced environment
- **Foreign languages skills highly advantageous**, particularly Spanish and Portuguese. **Candidates with Arabic, Mandarin, Japanese, Korean, Turkish or Bahasa Indonesian skills are also highly encouraged to apply.**

Compensation:

Interns will receive a stipend to cover related costs:

Part time (20hrs/week) \$100/month

Full time \$250/month

How to Apply:

Interested candidates should send a resume and a cover letter to hr@cg-la.com noting **Infrastructure Projects Research Intern**. Thank you for your interest in becoming an intern for CG-LA Infrastructure. Please review the following information regarding our company to familiarize yourself with our organization.
