SALES BULLETIN #9-73

JULY 23, 1973

1973 MODEL BUILDOUT

Although 1973 model production will continue until the end of September, we have already received enough orders to complete production on Aerobuses and six-cylinder Taxicabs and Marathons. At this time, a small supply of V-8 Taxicabs and Marathons are still available for sale, but we expect these to be sold by the middle of August.

Orders for 1974 Checkers can be submitted using the current order form and will be accepted subject to a price increase on the 1974 model. Please remember that delivery of orders received in October and November probably will not be made until after the first of the year. Therefore, initial 1974 orders should be submitted by August 15 so plans can be made to produce them before the end of December.

A handwritten signature in blue ink, appearing to read "John J. Love".
