

CHECKER MOTORS CORPORATION  
Kalamazoo, Michigan 49007

SERVICE BULLETIN NO. K-16-73  
August 8, 1973

MODEL 1973 INSTRUMENT PANEL  
AND ASSOCIATED WIRING CHANGES  
Taxicab-Marathon-Aerobus  
(After Chassis No. 35579)

The Instrument Panel and Associated Wiring have been changed in Model 1973 vehicles, except Aerobus, after above noted chassis number, in order to accommodate the installation of a Seat Belt Starter Interlock System required with Federal Motor Vehicle Safety Standard No. 208 "Occupant Crash Protection".

New service replacement parts available for the revised installations are noted on pages 1 and 2 of this Service Bulletin as to part identification and vehicle model usage.

IMPORTANT: Be sure and check this Service Bulletin when ordering service replacement Instrument Panel and Associated Wiring parts for any Checker vehicle after above noted chassis number.

Attach this Service Bulletin to Service Bulletin No. K-16-72 dated August 25, 1972.
