ENGINEERING MEMO #101

TO: Memo Distribution  
FROM: R. G. Fuller  
SUBJECT: ANTI-FREEZE INSTALLATION

Checker Motors will continue installation of Anti-Freeze MB-101 the year round. The cost of same will be charged to customer as an extra. Anti-Freeze will replace the Rust Inhibitor MT-116 per current specification in B/M.

Production Orders will specify deviations from the above either to increase the concentration of mixture or to eliminate the anti-freeze entirely. Elimination of Anti-Freeze may not, however be ordered between September 15 and April 15.
