

ENGINEERING MEMO. #112

TO: Memo. Distribution  
 FROM: S. Wilson  
 SUBJECT: OIL COOLER TUBE REVISION

The four flexible hoses as used with Oil Cooler Tubes will be eliminated and replaced by new tubes. Also the in-line Fram Auto. Trans. Filter will be discontinued as an option.

This revision will be effective when the new tubes are available and stock on hand of old tubes has been depleted.

Service of old design without Filter can be made with new Tube Assemblies.
