ENGINEERING MEMO NO. 159

TO: Memo Distribution
FROM: S. Hori
SUBJECT: ELIMINATION OF DECK LID HANDLES

A. General Comments

1. As requested by Management, the Deck Lid "T" Handle and "L" Handle will no longer be available for regular production on Taxicabs.
2. The balance of the Deck Lid handles will be set aside and used up on Production Orders specifically requesting the Deck Lid Handle.
3. The Cab Lock Packages will be replaced by a corresponding or similar Cab Lock Packages without handles.

B. Effective Point

1. The changeover should be made as soon as possible to set aside as many of the Deck Lid Handles as possible for customers insisting on Deck Lid Handles.
2. A new Lock Package is required for Individually Keyed Cabs without deck lid handles. The availability of this new lock package will determine when the complete changeover can be made.
3. The use of existing Lock Packages to replace the Lock Packages to be cancelled must be determined by the stock on hand and availability.
