ENGINEERING MEMO #160

TO: Memo Distribution

FROM: R. G. Fuller

SUBJECT: REWORK OF THROTTLE LEVER AND THROTTLE LEVER ADAPTER
FOR FIRST SIXTY-FIVE #701803 CARBURETORS

1. The first fifteen units will require the removal by Checker, of a ball stud from the lower end of the throttle lever.
2. All sixty-five units will require a reworked adapter per #702989. Future shipments of this carburetor, which is released for 283 V-8 with A.I.R., will have the same throttle lever as we use on 283 V-8 without A.I.R.
