

TO: Memo Distribution
 FROM: B. Lewis
 SUBJECT: WINDSHIELD GLASS REVISION

So that our windshields will conform to proposed Federal Vehicle Safety Standards, our present glass using .015 thickness plastic will be cancelled and replaced by glass using .030 thickness plastic.

This additional thickness should not affect our windshield weather-seals or body opening. The new glass will be incorporated without obsolescence of old except that on new vehicles sold in the State of Florida after Jan. 15, 1967, the new glass must be installed.

PARTS AFFECTED

PART NAME		OLD PART NUMBER	NEW PART NUMBER	I	A	REMARKS
Glass-Windshield Clear	B	630272	644177	YES	NO	Use
Glass-Windshield Tinted	B	630271	644178	YES	NO	Use
