

ENGINEERING MEMO # 177

TO: Memo Distribution  
FROM: R. E. Orwig  
SUBJECT: PARKING BRAKE LEVER KICK-RAIL FOR TAXICABS  
(MODELS B-11 & B-11E)

A Parking Brake Lever Kick-Rail is being released for use on all Taxicabs. It is mounted on the Cowl Side Panel and the mounting holes are to be located and drilled at assembly. This new Kick-Rail will eliminate the necessity of reinforcing the purchased Parking Brake Lever Assembly (#701066) as we are presently doing. All stock of the reinforced Lever Assemblies (#701319) should be used without obsolescence. Service should install the Kick-Rail as required instead of the reinforced Lever Assembly--which is being cancelled. Following is a list of parts affected:

NAME	B or M	OLD PART NO.	NEW PART NO.	I	A	REMARKS
Lever & Reinf. Assy.	M	701319	-----	YES	NO	Cancelled
Reinf.-Park.Brake Lever	M	702440	-----	NO	NO	Cancelled
Kick-Rail-Park.Brake Lever	M	-----	644236	YES	YES	New
Brace-Rear Fender-Rear	M	634374	-----	--	--	*Increase Usage
Bolt-1/4-20 x 1 Hex.HD.	B	121900	-----	--	--	Increase Usage
Washer-9/32 I.D. x 5/8 O.D.	B	120392	-----	--	--	Increase Usage
Nut, Washer & Sealer Assy. 1/4-20	B	626403	-----	--	--	Increase Usage

\* Use To Make 644236
