ENGINEERING MEMO #252

TO: Memo Distribution

FROM: B. Lewis

SUBJECT: REAR DOOR LOWER HINGE-SPECIAL FOR ALL CARS WITH SIDE MOLDING

Effective at once on all "Israel Diesel Conversion" cars not yet shipped from the factory, and as soon as possible on all other production using a side molding, a special Rear Door Lower Hinge will be used with modified door check to reduce door swing angle and prevent damage to Rear Door Side Moldings.

The new hinge will be used on all A-12, A-12W & A-12E cars but should be used on A-11, A-11E and Aerobus only when Optional Side Molding are specified on Production Orders.

Until such time as the vendor can provide the new hinge, requirements will be met by a Checker rework of the present hinge.

SUBJECT: REAR DOOR LOWER HINGE REVISION

Effective at once on all "Israel Diesel Conversion" cars not yet shipped from the factory, and as soon as possible on all other production using a side molding, a special Rear Door Lower Hinge will be used with modified door check to reduce door swing angle and prevent damage to Rear Door Side Moldings.

The new hinge will be used first on all A-12, A-12W & A-12E cars and on A-11, A-11E and Aerobus when Optional Side Molding is specified on Production Orders.

Until such time as the vendor can provide the new hinge, requirements for above usage will be met by a Checker rework of the present hinge. The old hinge without rework can be used without obsolescence on all cars not equipped with side molding.
