SUBJECT: ADDITIONAL HEAT & NOISE INSULATION FOR MODELS A-11, A-11E

In order to improve interior comfort of A-11, A-11E Taxicabs relative to noise and heat, additional deadener and jute will be added to the front and rear floor areas.

(A) This change will be made on Aug. 20, 1973 for all parts except 644521 and 634991. The exact effective point for exact 644521 & 634991 will depend on the availability of additional quantities of the parts affected, to cover the increased line usage, but not later than the start of 1974 model production on approximately October 1, 1973.

Following is a complete list of the parts affected.
