ENGINEERING MEMO #414

TO: Memo Distribution  
FROM: C. Bland  
SUBJECT: LOCKING VENT WINDOW HANDLE

To improve the design and to cut cost the Locking Handle will be replaced with a Latching Type Handle.

The Locking Type Vent Windows will be used up in L.H. & R.H. Pairs only.

The change will be made with a minimum of obsolescence.

Service will be affected in that detail parts will not interchange, but major assemblies are interchangeable.

Following is a complete list of parts to be affected.
