Education	Master of Computer Science – Wayne State University	Dec 2014
	B.S. Computer Science – Wayne State University	July 2013
	B.A. Mathematics – Wayne State University	July 2013
Experience	Full Stack Web Developer – ViewTurn.com	2015 – Present
	A startup company I helped design and create. ViewTurn is a web application created to simplify the job application process. A PHP/Laravel project used to create resume parsing algorithms, video/audio compression/conversion, and complex access control.	
	Full Stack Web Developer – TrackLeft.com	2015 – 2016
	Another startup created from the ground up. TrackLeft is a sales process tool intended to create a better salesman. Using PHP/Laravel we quickly created this project in a couple months. Managed MySQL, AWS servers, and development.	
	Mathematics Tutor – Wayne State University	2008 – 2014
	Responsible for tutoring college level math: Pre-calculus, Calculus 1-3, Linear Algebra, Abstract Algebra, Statistics. Proctored for numerous college level exams.	
	Freelance Web Development – Self Employed	2006 – 2012
	Developed websites from the ground up using HTML, PHP, MySQL, and Photoshop. Additionally used content management systems such as: Joomla, Drupal, e107, and cPanel.	
Technical	Language Proficiency: PHP, Laravel, JavaScript, CSS, NodeJS AWS: EC2, CodeDeploy, S3, ElasticBeanStalk, Route53, RDS Knowledgeable of: PHPStorm, GitHub, Vagrant, RedBean Comfortable developing on: Windows / Unix machines
