Education	Master of Computer Science – Wayne State University	Dec 2014
	B.S. Computer Science – Wayne State University	July 2013
	B.A. Mathematics – Wayne State University	July 2013
Experience	Lead Developer – Hunch Free	2017 – Present
	A web / digital marketing agency. During my time at Hunch Free I handled any SaaS projects that needed to be built. This included setting the database foundation for a project, scraping data as needed from online sources, and scaffolding the entire project until completion.	
	Full Stack Web Developer – ViewTurn	2015 – 2017
	A startup company I helped design and create. ViewTurn is a web application created to simplify the job application process. A PHP/Laravel project used to create resume parsing algorithms, video/audio compression/conversion, and complex access control.	
	Full Stack Web Developer – TrackLeft	2008 – 2014
Another startup created from the ground up. TrackLeft is a sales process tool intended to create a better salesman. Using PHP/Laravel we quickly created this project in a couple months. Managed MySQL, AWS servers, and development.		
		2006 – 2012
	Mathematics Tutor – Wayne State University	
	Responsible for tutoring college level math: Pre-calculus, Calculus 1-3, Linear Algebra, Abstract Algebra, Statistics. Proctored for numerous college level exams.	
	Freelance Web Development – Self Employed	
	Developed websites from the ground up using HTML, PHP, MySQL, and Photoshop. Additionally used content manage systems such as: Joomla, Drupal, e107, and cPanel.	

Technical

Language Proficiency: PHP, Laravel, JavaScript, CSS, NodeJS

AWS: EC2, CodeDeploy, S3, ElasticBeanStalk, Route53, RDS

Knowledgeable of: PHPStorm, GitHub, Vagrant, RedBean

Comfortable developing on: Windows / Unix machines
