

Jeep® J6 Honcho Concept

Updated for 2025, the Jeep® J6 concept mixes the classic late 1970s Jeep Honcho theme with concept and production Jeep Performance Parts and accessories from Mopar. The J6 Honcho is a four-door Rubicon customized into a two-door truck configuration, maximizing cargo space with a large, 6-foot functional bed “box” area that is 12 inches longer than the standard Jeep Gladiator bed. The overall length of the J6 is 201 inches, while the wheelbase clocks in at 118.4 inches, matching the wheelbase of the current-generation four-door Jeep Wrangler.

NOTABLE
