HomeLink universal transceiver (included with Driver Convenience Group)	—	P	P	P	P

(a) Certified to the Federal Regulations that allows less forceful front air bags. Always sit properly in the seat with the seat belt fastened. Children 12 and under should always be in a back seat correctly using an infant or child restraint system or the seat belt positioned correctly for the child's age and weight.

(b) No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the electronic stability control (ESC) warning lamp in the speedometer flashes, the driver need to use less throttle, and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt.
