	4x4	11.2 (25)	8.0 (35)

DISCLAIMERS: Specifications, pricing, descriptions, illustrative materials and all competitive comparisons/claims contained in this document are as accurate as known at the time of production approval (June 2016). Some of the equipment shown or described throughout this document is available at extra cost. 1. Most Capable Small SUV Ever is based on historical Canadian unbody B-SUV segment competitors as identified by WardsAuto Auto Small Crossover and Small SUV segments (years 1985-2014). 4x4 capability based on Jeep B-SUV offering low range power transfer unit (PTU) with 20.1 crawl ratio, low range 4x4 capability. 2. Jeep "Small SUV" sub-segmentation based on small sport and cross utility vehicles including Nissan Juke, Mini Countryman, Mini Paceman, Buick Encore, Honda HR-V. Best-in-class 4x4 capability based on Jeep B-SUV offering low range power transfer unit (PTU) with 20.1 crawl ratio, low range 4x4 capability. 3. Jeep "Small SUV" sub-segmentation based on small sport and cross utility vehicles including Nissan Juke, Mini Countryman, Mini Paceman, Buick Encore, Honda HR-V. 4. Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Voice commands of phone require a Bluetooth compatible phone. 5. Never program while driving. GPS mapping and available 3D navigation may not be detailed or available in all areas or reflect current road regulations. Additional fees will apply for Dealer Activated Navigation. 6. Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. 7. No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. 8. The advanced front air bags in this vehicle are certified to the federal regulations for advanced air bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. 9. Requires SiriusXM radio subscriptions governed by SIRIUS terms and conditions available at siriusxm.ca. 10. This is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of their surroundings and be prepared to take corrective action to avoid collisions.
